Product Description

Product Description:

Chrysanthemum essential oil is perfect for those fresh and long-lasting scents that will leave your products smelling fresh and natural, which is designed for industrial and everyday use. Whether you want to produce a new range of toothpaste or create a unique scent for your fragrance brand, our perfume essential oils will meet your needs. The herbal extract of chrysanthemum essential oil **provides additional health benefits** that many other essential oils lack.

1. Soothing and anti-inflammatory: Chrysanthemum essential oil has certain anti-inflammatory and soothing properties that help relieve gum inflammation and discomfort and promote oral health.
2. Antibacterial action: The antibacterial properties of chrysanthemum essential oil can help suppress harmful bacteria in the mouth, reduce bad breath and prevent tooth decay.
3. Fresh breath: Its fresh aroma can effectively cover up bad breath and keep breath fresh.
4. Relaxing effect: Chrysanthemum essential oil has a relaxing aroma, which helps to reduce the tension when brushing in the morning, providing a pleasant brushing experience.

Advantages:

1.high purity, long-lasting fragrance retention
2.environmentally friendly and non-toxic component
3.20 years manufacturing experience
4.with research center of fragrance and flavor engineering technology

Applications:

Chrysanthemum essential oil is suitable for all occasions and scenes. For example, it is ideal for those who want fresh breath and an extended fragrance. The herbal extract component in the oil makes it more effective and reliable. Chrysanthemum essential oil, also known as chrysanthemum base, is an excellent product for those who want to freshen their breath and extend their fragrance. With its herbal extract ingredients, it is an excellent addition to any daily product range. **It has a variety of applications:**

Skin care products: Chrysanthemum essential oil is often used in skin care products such as creams, lotions, masks, and other skin care products due to its anti-inflammatory and soothing effects, helping to reduce skin irritation, relieve redness and sensitivity.
Shampoos and conditioners: Their natural antibacterial and soothing properties can help improve scalp health and reduce itchiness and dryness.
Toothpaste Making: For the mouth, it can freshen the breath and lengthen the fragrance, cover up the bad breath
Air refreshing products: Chrysanthemum essential oil can be used in air fresheners to provide a fresh floral scent to indoor Spaces, improve air quality and mask odors
Cleaning products: Can be added to household cleaners to take advantage of their natural antibacterial properties to enhance the cleaning effect while providing a pleasant aroma.
