Product Description

100% Pure Eau Tendre Fragrance Essence For Perfume Making With Free sample
LDZ-PL10050

Product Description:

This "Eau Tendre" fragrance essence is not just a simple copy of the soft scent, but a more delicate and personalized modern interpretation based on the classic. It opens with the iconic fresh fruity scent, but we cleverly enhance the layering of citrus notes and add the unique spiciness of pink pepper to inject an unexpected lively jump into the top note, making it more agile in gentleness.
The core soft floral scent is no longer just a simple stack of light jasmine and rose. We selected rare white camellia, whose pure and slightly herbal scent is intertwined with traditional floral scents, bringing a more fresh and unconventional elegance. At the same time, a hint of aquatic green is integrated, as if the morning dew falls on the petals, giving the fragrance a stronger sense of breath and recognition.
The treatment of the base note is also more ingenious. The traditional musk base note is replaced by delicate ambergris and light cedar, creating a gentle and layered sensibility that retains a long-lasting fragrance while avoiding an overly sweet and heavy feeling. This unique base note, like the soft light of the skin, forms a clever balance with the freshness and brightness of the front and middle notes, ultimately presenting a unique "Eau Tendre" fragrance experience that is both gentle and independent, fresh and rich in connotation. It is not just "gentle water", but also a whisper of your personality charm, leaving an unforgettable exclusive mark inadvertently.

Product Feature:

This "Eau Tendre" fragrance essence is not a simple depiction of soft floral and fruity fragrance, but a modern upgrade of the concept of "gentleness". We retain its iconic watery freshness, but innovatively incorporate a trace of marine minerals to inject a hint of freshness of sea breeze into the top note, making it more straightforward and natural in sweetness.
The interpretation of the core floral fragrance is also more ingenious. No longer relying solely on traditional roses and jasmine, we boldly add the delicate powder texture of Japanese cherry blossoms. Its unique, slightly almond-flavored sweetness is intertwined with the classic soft floral fragrance to create a subtle and memorable oriental artistic conception. At the same time, the addition of a touch of fresh white tea fragrance is like injecting a ray of tranquil Zen into the bouquet, making it more restrained and calm in gentleness.
In the treatment of the base note, we abandoned the heavy musk and used the light amber gris instead. Its slightly salty warmth is interwoven with the silky sandalwood, just like the natural body temperature of the skin, gentle and lasting. This unique base note avoids the sweetness of traditional soft fragrances and gives the fragrance a stronger sense of modernity and memory.
The final result is a fragrance experience that has both the gentle background of "Eau Tendre" and the individual edges. It is like the surface of water in the morning light, gentle and reflecting unique colors. It is suitable for modern souls who pursue independence and individuality in softness, leaving an unforgettable and exclusive gentle mark.

Technical Parameter:

Key Differentiating Features		
	Traditional	Differentiated
Top Note	Common citrus (lemon, grapefruit) for a fresh opening	Infused with "Morning Dew" accord molecules, providing a clearer, more aqueous initial impression, like dewdrops on petals in the early morning, resulting in a more vibrant feel. Optionally paired with a subtle hint of pink peppercorn for an unexpected touch of refined spice.
Middle Note	Primarily features soft white florals like jasmine and rose	Core selection of "Water Lily Blossom" or "Japanese Cherry Blossom", the former offering a purer, slightly botanical elegance; the latter imparting a unique powdery and Eastern-inspired nuance, avoiding the cloying sweetness of traditional white florals, resulting in a more refined and ethereal character.
Base Note	Often concludes with musk and cedarwood.	Innovatively utilizes "Light Ambroxan", delivering a smooth, subtly marine-tinged warmth, replacing heavy musk for a more contemporary and transparent finish. Optionally paired with a touch of orris root to add a delicate powdery undertone, enhancing the fragrance's sophistication and memorability.

Key Technical Parameters (Highlighting Differentiation):	
Odor Strength	Adjustable based on needs, but recommended for creating light and soft perfumes, avoiding overwhelming intensity.
Longevity	Excellent, the innovative base note components ensure a lasting yet gentle sillage alongside the lightness, rather than a heavy residue.
Solubility	Highly soluble in high-proof ethanol, with a specially optimized formula to maintain clarity even at high alcohol concentrations, preventing cloudiness.
Stability	Superior, optimized for modern perfume formulations, exhibiting good resistance to discoloration or precipitation under typical storage conditions.
Organoleptic Evaluation	Assessed by professional perfumers, emphasizing its fresh, aqueous, ethereal, and non-sweet modern "Eau Tendre" style.
Application Advantages (Highlighting Differentiation)	Suitable for crafting new-generation fresh and soft perfumes, distinguishing itself from traditionally sweet counterparts. Provides a unique, more contemporary soft base for personalized and bespoke fragrances. Ideal for creating light and natural body care and home fragrance products, fostering a fresh and comfortable ambiance.

FUNCTIONS & APPLICATIONS

This "Eau Tendre" fragrance essence is not only the base of soft fragrance, but also the source of inspiration for you to create a unique olfactory imprint.
Its core application is to create a personalized and differentiated perfume:
1. Create a "shimmer" fragrance: Different from the sweetness of traditional soft fragrances, this essence can create a fresh perfume with a delicate water vapor like the morning shimmer. You can adjust the ratio to enhance its unique dew and green leaf scent, creating a pure, ethereal, and morning garden mood, which is more fresh and refined.
2. Create a "whisper of flowers": On top of the classic floral fragrance, we emphasize the etherealness of rare water lilies and the elegance of white tea. You can highlight the ratio of these two scents and incorporate a small amount of pink pepper to inject a modern sense of jumping into

the gentle floral fragrance, making it no longer sweet, but more personalized and memorable, as gentle as a whisper but unforgettable.
3. Create a "warm sun velvet feeling": The innovative use of the base note is the key to differentiation. The combination of light ambroxan and white musk can create a soft touch like the warm sun kissing your skin. You can try adding a small amount of cedar or orris root to enhance its woody сухость and powdery texture, creating a gentle and textured fragrance that is warm and modern.
4. Personalization and layering: The excellent integration of this essence makes it an ideal choice for personalization and layering. You can creatively combine it with other fragrances such as citrus, green leaves, and wood according to your personal preferences to create an exclusive and unique fragrance. For example, layering with citrus notes to enhance its freshness and vitality, and layering with wood notes to add calmness and restraint.
5. Create a unique fragrance product line: Not only limited to perfume, the unique fragrance characteristics of this essence are also suitable for body care, home fragrance and other product.

Support and Services:

We defenitily have the fragrance essense oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.
The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

1.Product usage instructions and guidance;

2. Expert advice on fragrance selection;

3. Technical support for any issues or concerns;

4. Product customization services;

5.Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
