Our Product Introduction

## Product Description

### Body Wash Products IFRA Fragrance oils Plant essential Oil Floral Lux Fragrance oil For Shower gel &Shampoo &Scented Soap Making /Productions with Free Sample

**Product Code: LDZ-PL21249**

Floral Lux Fragrance Oil is crafted to deliver an opulent, spa-grade bouquet tailored for shower gels, shampoos, and scented soaps. It opens with a sparkling lift of bergamot, neroli, and dewy pear, creating an immediate fresh burst in warm steam. At its heart blooms a rich, velvety accord of jasmine sambac, Damascus rose, and creamy ylang-ylang, balanced by soft peony so the scent feels lush yet refined rather than powdery or cloying. A warm, enveloping base of sandalwood, white musk, and golden amber anchors the composition for lasting appeal.

Engineered with batch-to-batch consistency in mind, Floral Lux performs reliably across small-batch artisan runs and high-speed industrial lines alike. Its diffusion holds up well under warm water exposure and mild heat processing, releasing a clean, round bouquet during lathering without turning sharp or thin after rinsing. Whether paired with clear sulfate-free cleansers, rich cream shampoos, or exfoliating bar soaps, it integrates effortlessly with common carrier oils, humectants, and fragrance fixatives, helping formulators maintain consistent olfactive character from mixing tank to final packaging while minimizing color shift and viscosity disruption.

### Fragrance Profile & Characteristics:

| | |
|---|---|
| Top notes | The top notes open with bright bergamot, crisp neroli, and juicy dewy pear. Together, they deliver an airy, refreshing sparkle that lifts immediately in warm shower steam and cuts cleanly through rich soap bases without feeling sharp or artificial. |
| Middle notes | At the heart, the middle notes unfold into a lush, velvety floral bouquet of jasmine sambac, Damascus rose, and creamy ylang-ylang, tempered by delicate peony. This blend adds rounded elegance and natural softness, keeping the fragrance blooming evenly during lathering so it never turns flat or overly sweet. |
| Base notes | As the scent settles, the base notes provide depth and staying power through creamy sandalwood, clean white musk, and warm golden amber. These heavier molecules slow evaporation on skin and damp hair, leaving a smooth, comforting finish long after rinsing. |

### Technical Specifications:

| | |
|---|---|
| Product Name | Floral Lux Fragrance oil |
| Fragrance Profile | Floral-Fruity-Woody aroma |
| Appearance | Clear, colorless to pale yellow liquid |
| Relative Density | 0.936 to 0.990 g/cm³ @ 25°C |
| Flash Point | Up to 93°C (200°F) |
| Refractive Index (RI) | 1.460 to 1.508(at 20°C) |
| Phthalate-Free | Yes |
| Shelf Life | 36 Months (Store away from light) |
| IFRA Compliance | Adheres to IFRA standards |
| Solubility | Soluble in surfactant-based systems |

### Recommended Usage Rates

| Application | Usage Rate |
| --- | --- |
| Shampoo/Body Washes: | 1% - 3% |
| Shower Gel: | 1% - 2% |
| Liquid Soap: | 0.3–0.8%; |
| Bar Soap (CP/MP): | 2% - 3% |
| Facial Cleanser: | 0.1–0.5% |

## Functions and Applications:

Floral Lux Fragrance Oil serves both sensory and formulation roles across personal care manufacturing. Its primary function is imparting a cohesive, upscale floral signature that elevates everyday wash-off products into memorable bathing and hair-washing experiences. Designed for strong bloom in warm water and rich lather, it projects a balanced bouquet during application while leaving a soft, lingering trail after rinsing.

Beyond scent delivery, the oil supports predictable manufacturing across varied surfactant and soap systems. Its balanced volatility helps preserve the top, middle, and base structure through warm mixing stages, mild processing heat, and alkaline soap environments, reducing flat spots or harsh scent distortion. Formulators also rely on it for smooth incorporation alongside solubilizers, conditioning polymers, humectants, and botanical extracts without severely disrupting lather quality, clarity, or target product viscosity when properly dosed.

For brands scaling from pilot batches to commercial runs, consistent olfactive performance streamlines quality control and reduces trial-and-error adjustments. By anchoring delicate florals over warm base notes, it helps finished products maintain shelf appeal and consumer satisfaction from initial opening to final use.

**Applications:**

In shower gels, Floral Lux pairs naturally with clear or pearlescent body washes, sulfate-free cleansers, and hydrating bath formulas. Warm shower steam activates the bright opening and lush floral heart, turning routine cleansing into a relaxing spa-like ritual while rinsing clean without heaviness.

In shampoos, it suits moisturizing, smoothing, and everyday cleansing formulas designed for damp hair. Lighter top and heart notes refresh during lathering, while the warm sandalwood, musk, and amber base helps leave a subtle, clean aroma on hair after drying without overpowering leave-on styling products.

In scented soaps, it adapts well to cold-process, hot-process, and melt-and-pour bars, including botanical or exfoliating varieties. Formulators can adjust usage rates to suit bar curing, fragrance stability, and visual goals, keeping color drift and acceleration manageable through proper testing.

| | |
|---|---|
| Hair Care | Shampoos, clarifying rinses, and nourishing liquid hair masks. |
| Body Care | Hydrating shower gels, exfoliating body polishes, and foaming hand washes. |
| Bar Soap Manufacturing | Both melt-and-pour bases and traditional cold-process or hot-process artisan bars. |
| Bath Additives | Luxury bath bombs, bubble bath elixirs, and milk bath soaks. |

## Packaging Options

| Pack Type | QTY | Specification | Volume |
|---|---|---|---|
| Plastic Bottle | 5kgs | L41*W28*H33.5cm (5kg*4 bottle per carton) | 0.038cbm |
| Metal Barrel | 25kgs | D30*H45cm | 0.032cbm |
| Jerry Can | 20-25kgs | L29.5*D29.5*H41cm | 0.33cbm |

Production begins immediately after payment (3-5 days for trial orders, 5-10 days for bulk orders). We provide photos or samples for confirmation before shipping via ship, air, truck, or express according to customer requirements.

## Support & Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- OEM support for custom scents

## Our Advantages

# 100% STRENGTH BRAND

Our products are strictly approved by a list of certifications,such as IS022000,COA
