Our Product Introduction

Product Description

IFRA Shampoo Scent Fragrance Grape Fragrance Oil For Shower gel &Shampoo &Scented Soap Making /Productions with Free Sample

Product Code: LDZ-PL21120

Grape Fragrance Oil is a delightful fruity fragrance developed for personal care and daily cleansing products, bringing the sweet, juicy aroma of freshly harvested grapes into shampoo, shower gel, scented soap, and other body care formulations. Its fragrance profile combines the mouthwatering sweetness of ripe grapes with refreshing fruity nuances and a subtle floral softness, creating an attractive and cheerful olfactory experience. The opening delivers a vibrant grape character reminiscent of freshly crushed berries, offering a pleasant balance between natural fruitiness and gentle sweetness. As the fragrance develops, softer fruity and floral undertones add roundness and richness, preventing the scent from becoming excessively sugary. A smooth, slightly musky finish provides a clean and comfortable impression that complements everyday bathing products.
This fragrance oil is particularly suitable for manufacturers seeking to introduce playful, refreshing, and recognizable fruit-inspired scents into their personal care collections. Its appealing aromatic character can enhance the sensory experience of cleansing products while helping brands develop distinctive product identities. It also offers formulation flexibility for creating coordinated grape-scented product ranges with consistent fragrance characteristics across different applications.

Fragrance Profile & Characteristics:

Top notes	The fragrance opens with the juicy sweetness of ripe grapes, accompanied by the slightly tart character of blackcurrant. A touch of citrus adds refreshing brightness, creating a lively and mouthwatering fruity introduction. This combination delivers a pleasant balance of sweetness and freshness.
Middle notes	At the heart, the rich aroma of red grapes becomes more prominent, blending with sweet raspberry and strawberry accords. Violet introduces a delicate floral softness, adding elegance and complexity to the fruity composition. These notes create a smooth, rounded, and appealing berry-fruit character.
Base notes	The dry-down reveals a gentle sweetness from creamy vanilla, complemented by clean white musk and subtle woody nuances. These accords provide a smooth, comforting finish that softens the fruity intensity and leaves a pleasant, lingering fragrance impression. The overall scent is sweet, refreshing, fruity, and suitable for everyday personal care products.

Technical Specifications:

Product Name	Grape Fragrance Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.936 to 0.990 g/cm³ @ 25°C

Functions and Applications:

Grape Fragrance Oil is developed to bring a sweet, juicy, and refreshing fruity aroma to daily personal care formulations. Its distinctive grape character combines ripe fruit sweetness with subtle berry freshness and delicate floral undertones, creating an enjoyable sensory experience during everyday cleansing. One of its main functions is to enhance the fragrance appeal of personal care products while helping manufacturers establish a recognizable fruity product identity. The pleasant aroma can make shampoo, shower gel, and scented soap more attractive to consumers, particularly those who prefer sweet and refreshing fruit-inspired scents. Its balanced fragrance structure also offers flexibility for blending with complementary ingredients such as strawberry, raspberry, citrus, vanilla, and musk to create customized fragrance variations. For personal care manufacturers, this fragrance oil provides an opportunity to develop coordinated product collections with a consistent fruity scent theme.

Applications:

Grape Fragrance Oil is suitable for a variety of daily cleansing and personal care products, including shampoo, shower gel, liquid hand wash, scented soap, body wash, and bath products. In shampoo formulations, its juicy fruity aroma can introduce a refreshing fragrance experience, making it suitable for everyday hair-cleansing collections. For shower gels and body washes, the sweet grape character helps create an appealing bathing experience with a cheerful and pleasant scent. It can also be incorporated into liquid soaps, bar soaps, and hand wash products to develop distinctive fruity cleansing ranges. Additionally, manufacturers can explore its use in body lotions, hand creams, and other fragranced personal care products, subject to formulation compatibility. For OEM and ODM manufacturers, this fragrance offers flexibility in developing customized grape-themed collections for different consumer groups and market preferences. Recommended dosage should be determined through formulation trials, stability testing, and applicable IFRA requirements for each finished product category.

Hair Care	Shampoos, clarifying rinses, and nourishing liquid hair masks.
Body Care	Hydrating shower gels, exfoliating body polishes, and foaming hand washes.
Bar Soap Manufacturing	Both melt-and-pour bases and traditional cold-process or hot-process artisan bars.
Bath Additives	Luxury bath bombs, bubble bath elixirs, and milk bath soaks.
