Product Description

Daily Wear IFRA Perfume Oil Devil's Intrigue Fragrance Oil For Perfume Making/Production With Free Sample MSDS

Product Code: LDZ-PL12349

It is a captivating, mysterious, and sophisticated fragrance designed for creating distinctive personal perfume compositions. Its olfactory character combines seductive sweetness, rich floral nuances, and deep oriental accords, producing an intriguing balance between elegance and intensity. The opening presents an attractive blend of fruity freshness and subtle aromatic spices, creating an immediate sense of mystery and temptation. As the fragrance develops, a luxurious floral heart emerges, adding depth, softness, and sensuality to the overall composition. Delicate floral nuances intertwine with warm spicy undertones, giving the scent a distinctive personality that feels both alluring and refined. The dry-down reveals a deeper and more enveloping character, where creamy vanilla, warm amber, smooth musk, and sophisticated woody accords create a rich, lingering impression. Rather than presenting straightforward sweetness, this fragrance relies on the contrast between soft sensual notes and darker, warmer elements to establish its distinctive identity. With its expressive aromatic structure and versatile blending potential, Devil's Intrigue Fragrance Oil is suitable for developing premium perfumes, bold signature scents, and exclusive niche-inspired fragrance collections. It offers perfume manufacturers an appealing direction for creating memorable fragrances with a mysterious and luxurious character.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The fragrance opens with the juicy sweetness of blackcurrant, enhanced by the sparkling freshness of bergamot. Pink pepper introduces a subtle spicy sensation, creating an intriguing first impression that balances fruity brightness with a mysterious aromatic edge.
Middle Notes (Heart)	At the heart, elegant jasmine and romantic rose create a rich floral combination. Orange blossom adds a delicate sweetness, while a touch of cinnamon introduces warm spicy nuances. These elements blend beautifully to produce a sensual, sophisticated, and slightly seductive floral character.

Base Notes (Foundation)	The dry-down reveals a deep and enveloping foundation. Creamy vanilla provides smooth sweetness, while amber contributes warmth and richness. Patchouli introduces earthy depth, complemented by soft musk and creamy sandalwood. Together, these accords create a warm, sensual, and memorable fragrance trail.

Applications & Functions:

It is designed to bring a mysterious, sensual, and sophisticated character to premium perfume formulations. Its distinctive combination of fruity freshness, elegant floral accords, warm spices, and rich oriental undertones creates a multi-layered fragrance experience. One of its main functions is to enhance the aromatic complexity of perfume compositions, adding depth, warmth, and an alluring personality. The interplay of creamy vanilla, amber, musk, and woody nuances helps establish a smooth and memorable fragrance identity, while the floral heart introduces elegance and refinement. Its versatile scent structure allows professional perfumers to adjust sweetness, intensity, and woody richness when developing customized fragrance concepts. It is particularly suitable for brands seeking to create distinctive perfumes with a bold, sensual, and contemporary positioning.

It is suitable for developing various premium personal fragrance products, including eau de parfum, eau de toilette, concentrated perfume oils, perfume sprays, and extrait de parfum. Its warm oriental-floral character makes it an attractive choice for creating sophisticated evening fragrances, sensual signature perfumes, and exclusive niche-inspired collections. It can be incorporated into alcohol-based perfume formulations or oil-based fragrance blends, depending on the intended product design and compatibility requirements. Additionally, manufacturers can explore its application in scented body mists, perfumed lotions, shower gels, and other coordinated personal care products, provided the fragrance meets the relevant safety and formulation standards. For OEM and ODM perfume manufacturers, this fragrance offers creative opportunities to develop customized collections with a distinctive mysterious and luxurious identity. Recommended dosage should be established through formulation trials and applicable IFRA guidelines.

Industrial Applications

Primary applications include:

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils

Fine Fragrances: Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

Premium Home Fragrancing: Top-tier choice for Bakhoor and luxury incense production

Hospitality Sector: Utilized in high-output nebulizers for hotel lobbies and boutiques

Personal Care: Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal
