Product Description

Concentrated Perfume Oil Ari by Ariana Grande Scent Fragrance For Perfume Making / Production With Free Sample &IFRA &MSDS Certifications

Product Code: LDZ-PL12432

Classified within the Floral Fruity Gourmand family, this Ari by Ariana Grande (Type) fragrance oil is engineered for fine fragrance manufacturing, body care, and cosmetic formulations, featuring a luminous diffusion balanced by a soft, skin-hugging dry-down. The olfactory architecture opens with a crisp, effervescent burst of Crispy Pear, Pink Grapefruit, and Juicy Raspberry, delivering immediate lift and bright sweetness without sharp acidity. It transitions smoothly into a sheer, modern floral core of Soft Muguet (Lily of the Valley), Rose Buds, and Creamy Vanilla Orchid, where watery transparency prevents the sweetness from becoming overly dense. Anchored by a tenacious base of airy Marshmallow, Creamy Musk, and Blonde Woods, the blend pairs ethyl maltol-type gourmand warmth with clean macrocyclic musks to ensure strong skin substantivity and a velvety, powdery trail. In production, this oil demonstrates high stability in hydroalcoholic bases (such as Eau de Parfum and body mists) and incorporates seamlessly into cosmetic emulsions, offering broad commercial appeal for youthful, feminine product lines.

The Valentino Donna Born in Roma Coral Fantasy fragrance oil opens with an energetic, radiant splash of Brazilian orange and juicy kiwi accord that captures the vibrant, sun-drenched spirit of a Roman sunset. As it develops, the scent transitions into a sophisticated, couture-inspired floral core, where rich Indian jasmine and romantic rose blend harmoniously with nutty ambrette seed for tactile depth. The dry-down settles into a warm, sensual foundation of clean white musk and woody Texas cedar, leaving a lingering, modern trail. Formulated as a high-concentrated oil, it offers exceptional longevity and skin-adherence without alcohol, allowing the complex fruity, floral, and musky facets to meld seamlessly with body heat for luxury perfume production.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	Opens with a crisp, effervescent burst of Crispy Pear, Pink Grapefruit, and Juicy Raspberry. This bright citrus-berry accord delivers immediate lift and sweetness without sharp acidity.
Middle Notes (Heart)	Transitions smoothly into a sheer, modern floral bouquet composed of Soft Muguet (Lily of the Valley), Rose Buds, and Creamy Vanilla Orchid. The muguet provides watery transparency, preventing the composition from becoming overly dense.
Base Notes (Foundation)	Anchored by an airy Marshmallow accord, Creamy Musk, and Blonde Woods. The combination of ethyl maltol-type sweetness with clean macrocyclic musks ensures long-lasting skin substantivity and a warm, powdery-velvet trail.

Technical Specifications:

Parameter	Specification
Fragrance Name	Ari by Ariana Grande Scent Fragrance
Appearance	Transparent to amber liquid
Relative Density	0.905–0.998g/cm³ @ 25°C
Refractive Index	1.460–1.525
Flash Point	>80°C
Dosage	Home Fragrance: 6%–10% Soap/wash-off: 1.5-4% Fine Perfume: 15–30%; Eau de Parfum (EDP): 15–30%; Shower Gel & Shampoo: 0.2–1.0%; Body Oils/Lotions: 0.3–1%; Body Mist: 1%–5%;
Diffusion Ability	Excellent aroma

Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

Functionally, this Ari by Ariana Grande (Type) fragrance oil is engineered to provide consistent olfactory performance, superior solubility, and long-term chemical stability across diverse manufacturing matrices. Its balanced molecular weight distribution ensures a seamless evaporation curve, delivering an immediate, bright top-note throw upon application while utilizing high-tenacity macrocyclic musks and gourmand fixatives to anchor the scent on skin and hair for hours. The oil exhibits exceptional compatibility with denatured perfumery alcohol, solubilizers, and oil-in-water or water-in-oil emulsions, resisting phase separation, clouding, or viscosity shifts. Furthermore, it demonstrates reliable oxidative stability and minimal discoloration in standard base formulations—though standard antioxidants (such as BHT) and UV absorbers are recommended in clear packaging to prevent slight yellowing caused by vanillin and ethyl maltol derivatives. Designed to mask base odors effectively without overwhelming sensitive formulations, it maintains uniform scent fidelity throughout shelf life and thermal cycling.

This versatile fragrance oil is primarily formulated for fine perfumery, including Eau de Parfum (EDP), Eau de Toilette (EDT), body mists, and rollerball perfume oils, where its youthful, sweet-floral profile drives strong retail appeal. Beyond fine fragrance, it integrates effortlessly into personal care and bath lines such as body lotions, body butters, shower gels, foaming hand soaps, and bath bombs, imparting a lingering, comforting skin scent. In hair care manufacturing, it is well-suited for leave-in conditioners, hair mists, shampoos, and styling serums, offering excellent substantivity on hair fibers without weighing them down. Additionally, the oil performs reliably in home fragrance and ambient scenting applications, including soy and paraffin candles, wax melts, reed diffusers, and linen sprays, where

its creamy marshmallow and fruity-floral notes provide strong cold and hot throw for cozy, modern lifestyle collections.

Industrial Applications

Primary applications include:

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils
- **Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage
- **Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production
- **Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques
- **Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
