Product Description

Product Description:

Regardless of which scent is chosen, customers can be assured that they are receiving a high-quality product that has been manufactured with 20 years of experience. The Soap Fragrances product is available in plastic or iron packaging and in a variety of sizes, including 1kg, 2kg, 5kg, 10kg, 25kg, and 200kg. The liquid oil form of the soap makes it easy to use and apply, while also providing a luxurious lather that leaves the skin feeling soft and smooth.

One standout scent in the Soap Fragrances product line is the sweet-scented green tea fragrance. This scent provides a soothing and calming aroma that can help relax the mind and body. Customers can enjoy this fragrance in any of the available packing sizes, making it a versatile option for personal or commercial use.

Effects:

Green tea essence is commonly used in soap, primarily for the following effects and benefits:

1. Harmonizing and Fragrance Enhancement: Green tea essence imparts a unique green tea fragrance to the soap. This fresh aroma can provide a pleasant washing experience, making the cleansing process more enjoyable and comfortable.
2. Antioxidant and Antibacterial Effects: Green tea contains antioxidants that help the skin combat damage from free radicals, contributing to maintaining skin health. When added to soap, green tea essence retains some antioxidant properties, providing skin with antioxidant protection to a certain extent.
3. Skin Conditioning and Moisturizing: Green tea essence helps maintain the skin's moisture-oil balance, promoting soft and moisturized skin and reducing dryness after washing.
4. Soothing and Anti-inflammatory Effects: Sometimes used to soothe sensitive skin, green tea essence can help reduce the occurrence of skin inflammation and improve skin discomfort.

Overall, the inclusion of green tea essence in soap not only enhances its fragrance but also provides skin care benefits, allowing users to enjoy a more comprehensive cleansing and comforting experience during bathing.
