## Product Description

### Product Description:

Black orchid essence oil typically has a deep, mysterious fragrance. Using it in candles can bring the following **benefits and effects**:

**Creating a tranquil atmosphere:** The fragrance of black orchid essence oil is often described as profound and enchanting, capable of creating a quiet and mysterious ambiance. Illuminated by candlelight, this aroma can induce relaxation and a sense of peace.

**Enhancing room comfort:** The scent released by black orchid essence oil is sometimes considered to have a warming and soothing effect, enhancing the comfort and coziness of a room. Especially during evenings or colder seasons, this fragrance can make people feel more comfortable and warm.

**Aiding in relaxation and sleep:** Some people believe the fragrance of black orchid essence oil can help relax nerves, reduce stress and anxiety, thereby improving sleep quality. Therefore, using candles with this essential oil in the evening may promote a good night's sleep.

**Enhancing visual and sensory experience:** Candles themselves create a candlelight effect, which, combined with the deep fragrance of black orchid essence oil, can enhance the overall visual and sensory experience. This combination can add an elegant and mysterious atmosphere to a room, suitable for candlelit dinners, romantic occasions, or personal relaxation.

In conclusion, using black orchid essence oil in candles not only brings a pleasant fragrance but also enhances the comfort and aesthetic appeal of indoor environments through the psychological and emotional effects of its aroma.

Candle fragrances have several **characteristics**:

<b>Heat Resistance:</b> Candle burning generates heat, so fragrances need strong heat resistance to withstand this without degradation.
<b>Moderate Volatility:</b> Fragrances should release their aroma slowly during the burning process—neither too quickly nor too slowly
<b>Long-lasting Scent:</b> Since candles burn for an extended period, fragrances must have strong longevity to continuously emit aroma.
<b>Non-toxic:</b> Candles are used indoors, so fragrances must be free from harmful substances to ensure safety.
<b>Good Solubility:</b> Candle fragrances should dissolve evenly in wax without layering or crystallizing.
<b>Color Coordination:</b> Ideally, fragrances should complement the candle's color for aesthetic appeal.
<b>Moderate Price:</b> Considering candle pricing, fragrance costs should be relatively affordable.

In summary, candle fragrances require a balance and optimization across heat resistance, longevity, solubility, and other factors to meet various candle usage requirements effectively.

### Applications:

The Plant Fragrance LDZ-PL40001 scented candle fragrances are a perfect addition to any home, office, or event. These candle fragrances are carefully crafted with high-quality ingredients and are available in a light yellow or colorless liquid oil form. With a sweet-scented black orchid aroma, these candle scents provide a relaxing and calming experience.

The Plant Fragrance LDZ-PL40001 candle fragrances are ideal for various occasions and scenarios. The candle scent combinations can be used to create a warm and inviting atmosphere for a romantic dinner, a relaxing bath, or even a yoga session. These candle aromas and scents can also be used for events such as weddings, parties, and corporate events to create a pleasant and memorable experience for guests.

These candle fragrances are versatile and can be used with different types of candles such as soy candles, beeswax candles, and paraffin wax candles. The fragrances are also compatible with various candle making techniques such as hand-poured, molded, or dipped candles.

The Plant Fragrance LDZ-PL40001 candle fragrances also support OEM services, which means that customers can customize their own scents or use other famous perfumes to create unique candle fragrances. The fragrance oil for perfume can be used to leave a scent all over you, making it a perfect gift for friends and family.

When storing the Plant Fragrance LDZ-PL40001 candle fragrances, it is recommended to keep them in a cool and dry place. The packing is available in plastic or iron barrel, depending on the customer's preference.

### Customization:

The quality of our company's products is consistent with that of the top 4 international flavor companies. Our company is very competitive among Chinese flavor companies. In addition to ordinary flavors and fragrances, our imitation fragrance technology is also greatly affirmed, and the number of imitation fragrances is also the most complete. Our products have been sold to more than 80 countries.

\* We can imitate everything you want, our advantages are very clear. Please believe us.

\* We shape 100% concentrate cosmetic fragrance oil with the highest levels of creativity, performance and naturality to bring the most memorable moments to caring, cleaning and perfuming, sustainably.

"Fragrances bring another layer to Life, they enhance every day's experience"
