## Applications:

Plant Fragrance is available in different packaging sizes ranging from 10ml to 200kg. The different sizes allow flexibility in its application, whether it is for personal use or industrial use. The product is packed in plastic or iron barrels, which protect it from external factors that may affect its quality.

One of the main applications of Plant Fragrance is in Aromatherapy. The Aromatherapy Essence Oils are used to promote physical and emotional well-being by diffusing the fragrance in the air or by mixing it with a carrier oil and applying it directly to the skin. The fragrance oil is known for its ability to relieve stress, anxiety, and depression. It can also enhance the mood, improve sleep quality, and boost cognitive function.

Plant Fragrance can be used in various scenarios, including household, workplace, and leisure activities. At home, the fragrance oil can be used to create a relaxing and comfortable atmosphere. In the workplace, it can be used to increase productivity and reduce stress levels. In leisure activities such as yoga, meditation, and spa treatments, the fragrance oil can enhance the experience and provide therapeutic benefits.

Plant Fragrance is also used in the production of various products such as candles, soaps, lotions, and perfumes. Its unique Yellow Pine Fragrance Oil can add a pleasant and refreshing scent to these products, making them more appealing to consumers.
