## Product Description

### Product Description:

Rose Essence Oil LDZ-PL50033 is extracted from high-quality roses and has a unique rose fragrance. It can be added to washing products according to your needs to bring a unique floral fragrance to your clothes. Every drop of rose essential oil is carefully extracted to give clothes a natural fragrance, making your clothes glow with a charming aroma.

The natural antioxidant ingredients of rose essential oil effectively help protect fabrics, maintain their bright colors and soft texture. Its nourishing properties can also reduce fabric wear and tear, making clothes more durable. This laundry detergent is suitable for all kinds of fabrics. The gentle formula ensures cleaning while caring for clothing fibers. It is suitable for the whole family. Incorporate this laundry detergent into your daily laundry to bring rose-like elegance and care to your clothes.

### Why choose us?:

<b>Raw material advantage</b>	<ul style="list-style-type: none"> <li>*Fresh Raw materials are processed quickly from place of origin to factory to ensure freshness.</li> <li>*Nature Have cooperative base in raw material the place of origin.</li> <li>*Traceable Specially-assigned professional management. Strictly control the quality of raw materials</li> </ul>
-------------------------------	---

<b>Technology advantage</b>	<p>*Low temperature cycle stage extraction</p> <p>Analyzed the advantages and disadvantages of various extraction methods, combined with the characteristics of raw materials, geographical advantages and equipment output value and other factors, through repeated scientific experiments, finally confirmed that low temperature sub-extraction method has become the bottom extraction technology of all kinds of concentrate.</p> <p>*Break through technical difficulties</p> <p>The extraction process was completed under the condition of low temperature, and the good components were better preserved in the extraction process, which overcame the corruption of the extraction solution and the dissolution of impurities in the traditional extraction process. Breaking through the technical problems of insufficient head fragrance of flower concentrates, turbidity of tea concentrates, obvious bitter and astringent flavour of coffee concentrates, oxidation of citrus concentrates.</p>
<b>Products advantages</b>	<p>* Liquid form, storage at room temperature</p> <p>* Anti-corrosion, anti-oxidation, stability</p> <p>* High level of flavor reproduction</p> <p>* Customized services</p>
