## Product Description

### Product Description:

Coconut Fragrance Oil LDZ-PL40090, also known as coconut fragrance essence, coconut fragrance, coconut essence oil or coconut flavor, is sure to please anyone who loves the sweet, tropical scent of coconut. Our coconut fragrance oil is extracted from selected high-quality coconuts and uses advanced cold-pressing technology to retain the pure fragrance and nutritional content of coconuts. Not only does it bring a fresh, tropical feel to your space, it also nourishes and cares for your skin and hair. Whether you are a professional perfumer or just want to add a pleasant scent to your home or workplace, our Coconut Fragrance Oil is the perfect choice. Order now and enjoy the sweet, soothing scent of coconut wherever you go!

### Features:

- 1. Natural fragrance:** Coconut fragrance oil emits a natural, fresh aroma, adding a tropical feel to the candle. Its sweet scent is relaxing and helps create a cozy environment.
- 2. High volatility:** The volatility of coconut essential oil is moderate, allowing it to release the aroma evenly when lighting the candle, and it is not easy for the aroma to be too strong or disperse too quickly.
- 3. Improve the burning performance of candles:** Coconut essential oil combines well with wax, which can help candles burn more evenly and reduce uneven melting or smoke problems in the wax pool.
- 4. Rich in nutrients:** Coconut essential oil is rich in fatty acids, which can improve the texture of candles. It makes the surface of the candle smoother and increases the moisturizing properties of the candle.
- 5. Compatibility with other essential oils:** Coconut essential oil can be mixed with other essential oils to create a variety of rich fragrance combinations. For example, it can be mixed with citrus or floral essential oils to create a unique aroma experience.
- 6. Low irritation:** Coconut essential oil is generally mild to the skin and is suitable for use in home candles, reducing the risk of irritation to the respiratory tract or skin due to fragrance.
- 7. Increase the burning time of the candle:** The addition of coconut essential oil may have a slight impact on the burning time of the candle, helping to extend the life of the candle.
