Product Description

Product Description:

Our **Black Pearl Fragrance Essential Oil (Model Number: LDZ-PL80015)** is a high-quality product, perfect for those who want to add a pleasant scent to their products. Our aromatherapy essential oils have a long-lasting fragrance and an easy-to-use formula, making them a must-have for those in the perfume industry.

Extraction source: Black Pearl Fragrance Oil is an essence extracted from black pearl powder, combined with advanced extraction technology to ensure that its unique nutrients and aroma are retained.

Fragrance characteristics: Black Pearl Fragrance Oil has a soft, elegant aroma, exuding a unique marine scent that makes people feel peaceful and relaxed.

Our essential oils are easy to use and can be added at a rate of 0.1%-0.5%. This means that a small amount can go a long way, making our products cost-effective and efficient. You can use our essential oils in a variety of products, including candles, soaps, lotions, and perfumes. Our essential oils are designed to provide a long-lasting scent that will make you feel refreshed and energized.

Why Choose Us:

1. Raw material advantage

Fresh:Raw materials are processed quickly from place of origin to factory to ensure freshness.

Nature:Have cooperative base in raw material the place of origin.

Traceable:Specially-assigned professional management.Strictly control the quality of raw materials

2. Technology advantage

Low temperature cycle stage extraction,analyzed the advantages and disadvantages of various extraction methods, combined with the characteristics of raw materials, geographical advantages and equipment output value and other factors, through repeated scientific experiments, finally confirmed that low temperature sub-extraction method has become the bottom extraction technology of all kinds of concentrate.

3.Break through technical difficulties

The extraction process was completed under the condition of low temperature, and the good components were better preserved in the

extraction process, which overcame the corruption of the extraction solution and the dissolution of impurities in the traditional extraction process. Breaking through the technical problems of insufficient head fragrance of flower concentrates, turbidity of tea concentrates, obvious bitter and astringent flavour of coffee concentrates, oxidation of citrus concentrates.
