Product Description

Product Description:

One of the key features of this product is its usage. It can be used as a daily flavor, making it perfect for adding a burst of essence flavour to your food and drinks. Additionally, it can be used as an industrial flavor, making it an ideal ingredient for use in the creation of various products such as candles, soaps, and lotions. It can also serve as a fragrance oil for laundry detergent making, allowing you to add a pleasant aroma to your clothes while they are being washed.

The Blending Essential Oils product comes in a range of packing options to suit your needs. You can choose between plastic or iron barrels, depending on your preference. The packing sizes available range from 10ml all the way up to 200kg, ensuring that you can order just the right amount for your needs.

In addition to its versatility, this product is also known by a few different names. It is commonly referred to as Rose Fragrance Oil or Floral Fragrance, and is also sometimes called Rose Fragrance Essence Oil. No matter what you call it, you can be sure that it is of the highest quality.

If you're not quite sure if the Blending Essential Oils product is right for you, we offer free samples to help you make your decision. You'll receive 10-15 different kinds of samples, each about 10ml in size. This gives you the chance to try out the product and see how it works for you.

Overall, the Blending Essential Oils product is an essential oil that is versatile, high-quality, and known for its pleasant aroma. Whether you're using it for daily flavor, industrial flavor, or laundry detergent making, you can be sure that you're getting a product that will meet your needs and exceed your expectations.

Applications:

Rose essential oil is widely used in daily life and industrial production, **mainly in the following aspects:**

Application in daily life

- 1. Skin care products:** widely used in creams, essences, masks, etc., with moisturizing, anti-aging and soothing effects.
- 2. Aromatherapy:** can be used in aromatherapy lamps, diffusers and massage oils to help relax the body and mind and relieve stress.
- 3. Bath products:** added to shower gels, bath salts and other products to add fragrance and enhance the bathing experience.
- 4. Perfume:** Rose essential oil is a classic perfume ingredient, adding elegance and romance.
- 5. Household cleaning:** used in detergents to bring a natural and fresh aroma and enhance the cleaning experience.

Application in industrial production

- 1. Cosmetics industry:** as a fragrance and skin care ingredient, it adds fragrance and skin care effects to various cosmetics.
- 2. Food and beverages:** used for seasoning and fragrance, rose essential oil can provide a unique flavor in some foods.
- 3. Personal care products:** such as shampoo, conditioner and shaving cream, rose essential oil provides nourishing and aromatic effects.
- 4. Cleaning products:** widely used in a variety of cleaners and air fresheners to enhance the attractiveness of products.
- 5. Pharmaceutical industry:** used in certain herbal and health products to take advantage of its anti-inflammatory and sedative properties.

Due to its unique aroma and multiple functions, rose essential oil has become an indispensable ingredient in daily life and industrial production, improving the quality and use experience of products.
