Product Description

Product Description:

Our Blending Essential Oils are made with high-quality, environmentally friendly, non-toxic ingredients that have been carefully selected for their high purity and long-lasting fragrance retention. With over 20 years of manufacturing experience, we pride ourselves on creating essential oils that are both safe and effective.

Our essential oils are perfect for a variety of uses, including aromatherapy, massage, and DIY beauty products. Their high temperature resistance makes them ideal for use in candles and soap making. The essence fragrance and essence flavor of our oils will leave you feeling relaxed and rejuvenated.

It is important to note that our Blending Essential Oils are for external use only and should be kept away from eyes. We recommend using them in a well-ventilated area and avoiding direct contact with skin. If you experience any irritation, discontinue use immediately.

Experience the natural beauty and benefits of our Blending Essential Oils. Store them in a cool, dry place and enjoy their high purity and long-lasting fragrance retention for years to come.

Why choose us?:

Raw material advantage	<ul style="list-style-type: none"> *Fresh Raw materials are processed quickly from place of origin to factory to ensure freshness. *Nature Have cooperative base in raw material the place of origin. *Traceable Specially-assigned professional management. Strictly control the quality of raw materials
-------------------------------	---

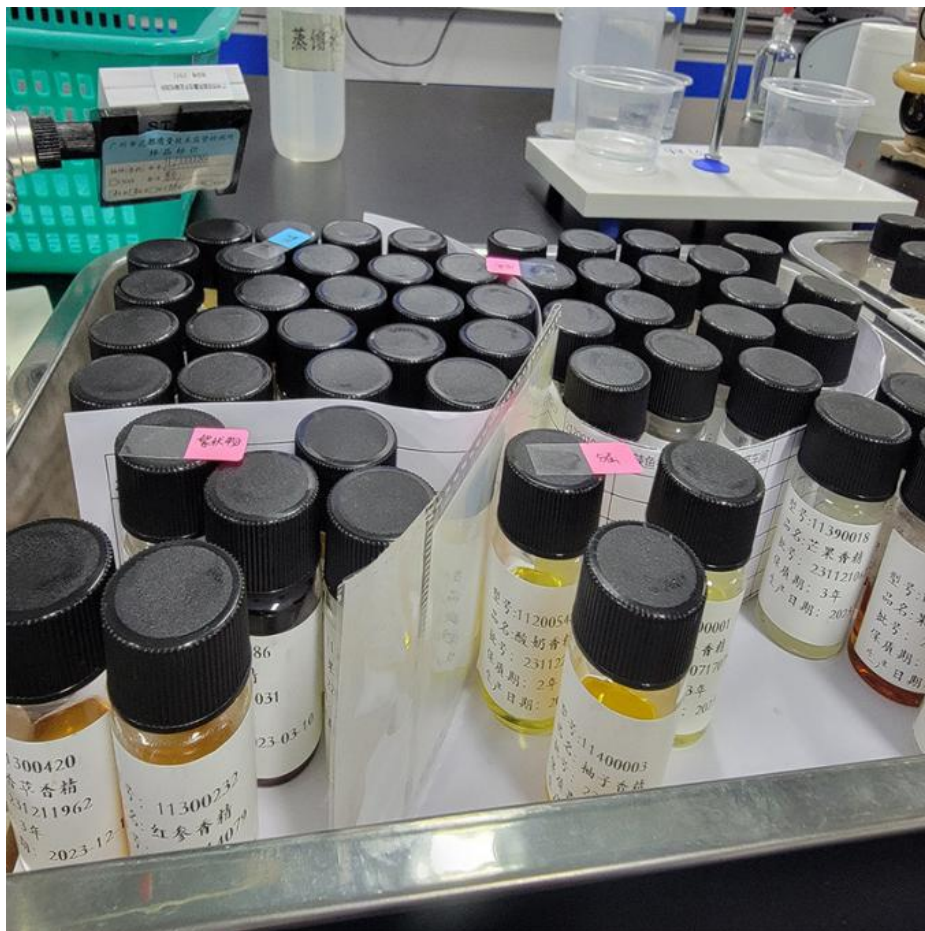

Technology advantage	<p>*Low temperature cycle stage extraction</p> <p>Analyzed the advantages and disadvantages of various extraction methods, combined with the characteristics of raw materials, geographical advantages and equipment output value and other factors, through repeated scientific experiments, finally confirmed that low temperature sub-extraction method has become the bottom extraction technology of all kinds of concentrate.</p> <p>*Break through technical difficulties</p> <p>The extraction process was completed under the condition of low temperature, and the good components were better preserved in the extraction process, which overcame the corruption of the extraction solution and the dissolution of impurities in the traditional extraction process. Breaking through the technical problems of insufficient head fragrance of flower concentrates, turbidity of tea concentrates, obvious bitter and astringent flavour of coffee concentrates, oxidation of citrus concentrates.</p>
Products advantages	<p>* Liquid form, storage at room temperature</p> <p>* Anti-corrosion, anti-oxidation, stability</p> <p>* High level of flavor reproduction</p> <p>* Customized services</p>

Applications:

The blending essential oil is perfect for use in spas, massage centers, and beauty salons. It can also be used at home for personal use or to create a relaxing atmosphere. The oil can be used in diffusers, oil burners, or vaporizers, releasing a pleasant aroma that can soothe the mind and body. **Black rose essential oil is widely used in daily life and industrial production.**

In daily life:

Black rose essential oil is widely used in skin care, aromatherapy, mood regulation and other aspects due to its unique aroma and multiple functions.

Black rose essential oil has whitening and anti-aging effects to a certain extent, can improve dry skin, restore skin elasticity, and make the skin firmer and more shiny.

In aromatherapy, black rose essential oil can make people feel happy and relaxed with the faint rose scent, help relieve stress, improve mood, and improve women's quality of life in a subtle way.

In industrial production:

The application of black rose essential oil is mainly reflected in the production of cosmetics, skin care products and related products. Because black rose essential oil has antibacterial, antispasmodic, bactericidal, aphrodisiac, purifying, calming, and tonic properties, it is suitable for all skin types, especially mature, dry or sensitive skin.

These properties make black rose essential oil an ideal raw material for the production of high-quality cosmetics and skin care products. In addition, black rose essential oil is also used to produce various perfumes, scented candles and other products to meet consumers' pursuit of high-quality lifestyles.

In summary, black rose essential oil not only plays an important role in daily life, but also plays an indispensable role in skin care, mood regulation, personal care and quality of life improvement. At the same time, in industrial production, it is also one of the important ingredients of many high-quality cosmetics and skin care products, showing its important value in modern life.

Support and Services:

Our Blending Essential Oils product comes with comprehensive technical support and services to ensure that you have the best experience using our product. Our team of experts is available to provide you with guidance and advice on any technical issues that you may encounter while using our product.
