## Product Description

### Product Description:

**Durian Fragrance Essential Oil(Moel Number:LDZ-PL100008)** is a unique and rich aroma product that captures the rich flavor of the durian fruit. Its aroma is sweet, with a slightly creamy and nutty flavor, and has many properties that are different from other aromatherapy essential oils. It is thermostable, which means it will not lose its fragrance when exposed to high temperatures. It also has a high purity, which means the fragrance will last longer. This makes it a great choice for those who want a long-lasting fragrance. Aromatherapy essential oils are also environmentally friendly and non-toxic, so they are safe for everyone to use.

#### Features:

**Unique aroma:** The strong aroma of durian can instantly evoke memories and emotions, suitable for those who love durian.

**Multi-purpose:** It can be used to flavor food and beverages, or as a base fragrance for perfume and fragrance products.

**Natural ingredients:** extracted from natural durian, ensuring the purity and quality of the product.

**Persistence:** The aroma is long-lasting and can maintain a long-lasting aromatic effect during application.

### Why choose us?

<b>Raw material advantage</b>	<ul style="list-style-type: none"> <li>*Fresh Raw materials are processed quickly from place of origin to factory to ensure freshness.</li> <li>*Nature Have cooperative base in raw material the place of origin.</li> <li>*Traceable Specially-assigned professional management. Strictly control the quality of raw materials</li> </ul>
-------------------------------	---

<b>Technology advantage</b>	<p>*Low temperature cycle stage extraction</p> <p>Analyzed the advantages and disadvantages of various extraction methods, combined with the characteristics of raw materials, geographical advantages and equipment output value and other factors, through repeated scientific experiments, finally confirmed that low temperature sub-extraction method has become the bottom extraction technology of all kinds of concentrate.</p> <p>*Break through technical difficulties</p> <p>The extraction process was completed under the condition of low temperature, and the good components were better preserved in the extraction process, which overcame the corruption of the extraction solution and the dissolution of impurities in the traditional extraction process. Breaking through the technical problems of insufficient head fragrance of flower concentrates, turbidity of tea concentrates, obvious bitter and astringent flavour of coffee concentrates, oxidation of citrus concentrates.</p>
<b>Products advantages</b>	<p>* Liquid form, storage at room temperature</p> <p>* Anti-corrosion, anti-oxidation, stability</p> <p>* High level of flavor reproduction</p> <p>* Customized services</p>

#### Technical Parameters:
