## Product Description

### Product Description:

Coffee essential oil is an aromatic essential oil extracted from coffee beans as the main raw material. It can emit a strong coffee aroma and is often used in aromatherapy, skin care products, massage oils and home fragrances. It not only provides a pleasant fragrance, but also has certain care effects. Coffee essential oil presents a dark brown or light yellow liquid with a rich, warm aroma of roasted coffee beans, with a slight bitterness and sweetness, similar to freshly brewed coffee. Its aroma can both awaken the senses and create a comfortable and relaxing atmosphere, so it is very suitable for boosting vitality in the morning or refreshing when tired.

#### Features:

**Refreshing:** The aroma of coffee is widely believed to help stimulate the spirit, improve attention and concentration, and is suitable for use when you need to concentrate.

**Soothing emotions:** Although coffee itself has a refreshing effect, its aroma can also help soothe anxiety, create a peaceful mood, and in some cases bring a sense of emotional relaxation.

**Aromatherapy:** In aromatherapy, coffee essential oil can be used as an auxiliary tool to help relieve stress. It can be diffused indoors through a diffuser to create a relaxing and warm atmosphere.

**Versatility:** Coffee essential oil can be used in aromatherapy, massage, skin care, bathing and DIY handicrafts. It can be mixed with other essential oils such as vanilla, chocolate, orange essential oil, etc. to create a richer aroma level.

### Why choose us?

<b>Raw material advantage</b>	<p>*Fresh Raw materials are processed quickly from place of origin to factory to ensure freshness.</p> <p>*Nature Have cooperative base in raw material the place of origin.</p> <p>*Traceable Specially-assigned professional management. Strictly control the quality of raw materials</p>
<b>Technology advantage</b>	<p>*Low temperature cycle stage extraction Analyzed the advantages and disadvantages of various extraction methods, combined with the characteristics of raw materials, geographical advantages and equipment output value and other factors, through repeated scientific experiments, finally confirmed that low temperature sub-extraction method has become the bottom extraction technology of all kinds of concentrate.</p> <p>*Break through technical difficulties The extraction process was completed under the condition of low temperature, and the good components were better preserved in the extraction process, which overcame the corruption of the extraction solution and the dissolution of impurities in the traditional extraction process. Breaking through the technical problems of insufficient head fragrance of flower concentrates, turbidity of tea concentrates, obvious bitter and astringent flavour of coffee concentrates, oxidation of citrus concentrates.</p>
<b>Products advantages</b>	<p>* Liquid form, storage at room temperature</p> <p>* Anti-corrosion, anti-oxidation, stability</p> <p>* High level of flavor reproduction</p> <p>* Customized services</p>
