Product Description

Product Description:

Our fragrance oils are also commonly referred to as Water Energy Perfume Fragrance Oils. They come in a light yellow or colorless appearance and are perfect for use in a variety of products, including soaps, candles, lotions, and more.

We offer OEM service for our fragrance oils, meaning we can work with you to create a custom scent or packaging for your brand. We also offer free samples for testing before ordering, so you can ensure the scent meets your expectations.

Our fragrance oils are made with high-quality ingredients and are designed to provide a long-lasting scent. Whether you're creating a new product or enhancing an existing one, our perfume fragrance oil is the perfect choice.

Some common uses for our fragrance oils include adding them to candles for a pleasant aroma, mixing them with lotions or body oils for a custom scent, or adding them to soaps for a more luxurious experience.

Overall, our scented perfume oils are a versatile and high-quality addition to any product line. With our OEM service and free samples, you can easily create a custom scent that perfectly fits your brand.

Detail:

Excellent fragrance retention effect, reduces the volatilization speed of fragrance, and prolongs the fragrance retention time by 2-2.5 times

Increases the intensity of fragrance, makes the fragrance last longer, and retains it for a long time

Small dosage, 20-30% of fragrance, saving costs

Almost colorless and odorless, will not affect the original color, aroma and taste of the fragrance

High solubility, both oil-soluble and water-soluble, suitable for various fragrances and perfumes
