Product Description

Product Description:

Grape essential oil (Model Number: LDZ-PL20126) is a natural essential oil extracted from the skin, pulp or seeds of grapes. Grape essential oil (also known as grapeseed oil) is a common natural skin care ingredient and is often used in personal care products such as shampoo, skin care products, shower gel, etc. This blended essential oil product also has other names such as grape scented essential oil, grape flavored essential oil and grape fruit flavored essential oil. It has a shelf life of 1-3 years, with a shelf life of one year for opened products and a shelf life of three years for unopened products. It is recommended that you store this product in a sealed container in a cool and dry place to preserve its quality.

Our blended essential oil product is perfect for use in any aromatherapy diffuser essential oil. It is a fragrance that helps you create a calm and relaxing atmosphere in your home or office. This product is also perfect for aromatherapy essential oils as it has many health benefits that can help you feel better both physically and mentally.

In conclusion, our blended essential oil product is a must-have for anyone who wants to enjoy the many benefits of grape extract. This product is safe, easy to use and has a long shelf life. Whether you're looking for a scented fragrance for your home or office, or want to enjoy the benefits of aromatherapy oils, our essential oil blends are perfect for you.

Why Choose Us:

1. Products advantages

Liquid form, storage at room temperature
Anti-corrosion, anti-oxidation, stability
High level of flavor reproduction
Customized services

2. Raw material advantage

Fresh: Raw materials are processed quickly from place of origin to factory to ensure freshness.
Nature: Have cooperative base in raw material the place of origin.
Traceable: Specially-assigned professional management. Strictly control the quality of raw materials

3.Technology advantage

Low temperature cycle stage extraction,analyzed the advantages and disadvantages of various extraction methods, combined with the characteristics of raw materials, geographical advantages and equipment output value and other factors, through repeated scientific experiments, finally confirmed that low temperature sub-extraction method has become the bottom extraction technology of all kinds of concentrate.

4.Break through technical difficulties

The extraction process was completed under the condition of low temperature, and the good components were better preserved in the extraction process, which overcame the corruption of the extraction solution and the dissolution of impurities in the traditional extraction process. Breaking through the technical problems of insufficient head fragrance of flower concentrates, turbidity of tea concentrates, obvious bitter and astringent flavour of coffee concentrates, oxidation of citrus concentrates.

Technical Parameters:

Applications:

Grape essential oil has a wide range of uses in daily life and industrial production. With its natural antioxidant, moisturizing and aromatic properties, it has been applied in various fields. **The following are its main applications:**

Applications in daily life:

Skin care: used in products such as creams, lotions, and essences to moisturize and repair the skin, and is often used as massage oil and after-sun repair cream.

Hair care: added to conditioners, hair masks, and scalp care products to nourish hair, prevent dryness and split ends, and improve scalp health.

Aromatherapy: used as an aromatherapy essential oil to relieve stress and relax the body and mind, or added to bath salts and bath oils to enhance the bathing experience.

Handmade soap and candles: provide natural aroma and skin care effects, and are often used in the production of handmade soap and scented candles.

Applications in industrial production:

Cosmetics industry: widely used in skin care products and makeup products such as lotions, facial masks, and lipsticks, providing antioxidant and moisturizing effects.

Personal care products: used in shampoo, conditioner, shower gel and other products to enhance the nourishing effect of the product.

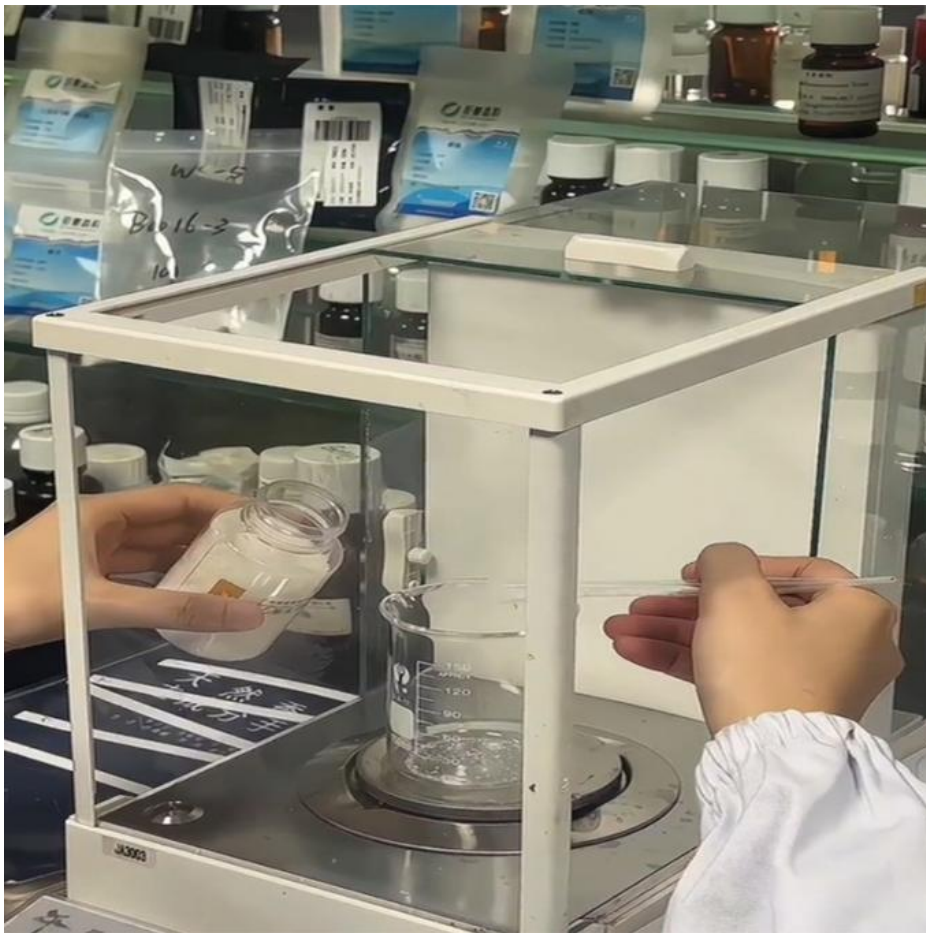

Perfumes and home fragrances: used as natural fragrances in perfumes, air fresheners, and scented candles to bring a fresh fruity aroma.

Food and health products: used in food flavors, functional foods, or nutritional supplements to provide antioxidant and health benefits.

Grape essential oil has shown a wide range of application value in many fields and is an important ingredient in natural beauty, care, and health products.
