Product Description

Product Description:

Coffee essential oil (Model Number: LDZ-PL30076) is a kind of aromatic essential oil extracted or simulated from coffee beans, which is widely used in aromatherapy, skin care products and food additives. Coffee essential oil has a strong coffee aroma, usually dark amber or light brown, and has a relatively viscous texture. It can simulate or directly provide the natural aroma of coffee beans, so it is often used to create a warm and comfortable atmosphere and evoke people's pleasant associations with coffee.

More Details:

Rich aroma: Coffee essential oil has a strong coffee bean aroma, with complex aroma layers such as caramel, nuts, chocolate, etc., suitable for aromatherapy diffusers or personal fragrance products.

Refreshing: The aroma of coffee can help improve mental concentration and mood, so using coffee essential oil in a work or study environment can keep people awake and focused.

Aromatherapy: The aroma can be diffused through diffusers, candles, etc. to create a warm and comfortable atmosphere.

Handmade: Suitable for scenting products such as handmade soaps and candles, adding rich aroma layers.

Personalized aromatherapy: Coffee essential oil can be combined with other essential oils such as vanilla, cinnamon, citrus, etc. to create a variety of aroma combinations, suitable for personalized aroma blending.

In general, coffee essential oil is a product that combines pleasant aroma with potential skin care effects. It is often used to add the natural aroma of coffee beans to the space and body, and is suitable for users who like the smell of coffee.

Why Choose Us:

1. Products advantages

Liquid form, storage at room temperature
Anti-corrosion, anti-oxidation, stability
High level of flavor reproduction

2.Raw material advantage

Nature:Have cooperative base in raw material the place of origin.
Fresh:Raw materials are processed quickly from place of origin to factory to ensure freshness.
Traceable:Specially-assigned professional management.Strictly control the quality of raw materials

3.Technology advantage

Low temperature cycle stage extraction,analyzed the advantages and disadvantages of various extraction methods, combined with the characteristics of raw materials, geographical advantages and equipment output value and other factors, through repeated scientific experiments, finally confirmed that low temperature sub-extraction method has become the bottom extraction technology of all kinds of concentrate.

4.Break through technical difficulties

The extraction process was completed under the condition of low temperature, and the good components were better preserved in the extraction process, which overcame the corruption of the extraction solution and the dissolution of impurities in the traditional extraction process. Breaking through the technical problems of insufficient head fragrance of flower concentrates, turbidity of tea concentrates, obvious bitter and astringent flavour of coffee concentrates, oxidation of citrus concentrates.

Technical Parameters:

Testing Items	Standard Requirements	Testing Result	SingleConclusion
Appearance	Pale yellowish clear liquid.	Qualified	Conformed
Scent	with the aroma of sweet scented coffee	Qualifiod	Conformed
Density	0.848-0.880	0.856	Conformed
optical Rotation	-5--18°	-2.4°	Conformed
Refractive Index	1.452-1.470	1.462	Conformed
Freezing point	16-23.5	17	Conformed
Ester value	7-24	14	Conformed
Geraniol content	30-42%	35.2%	Conformed

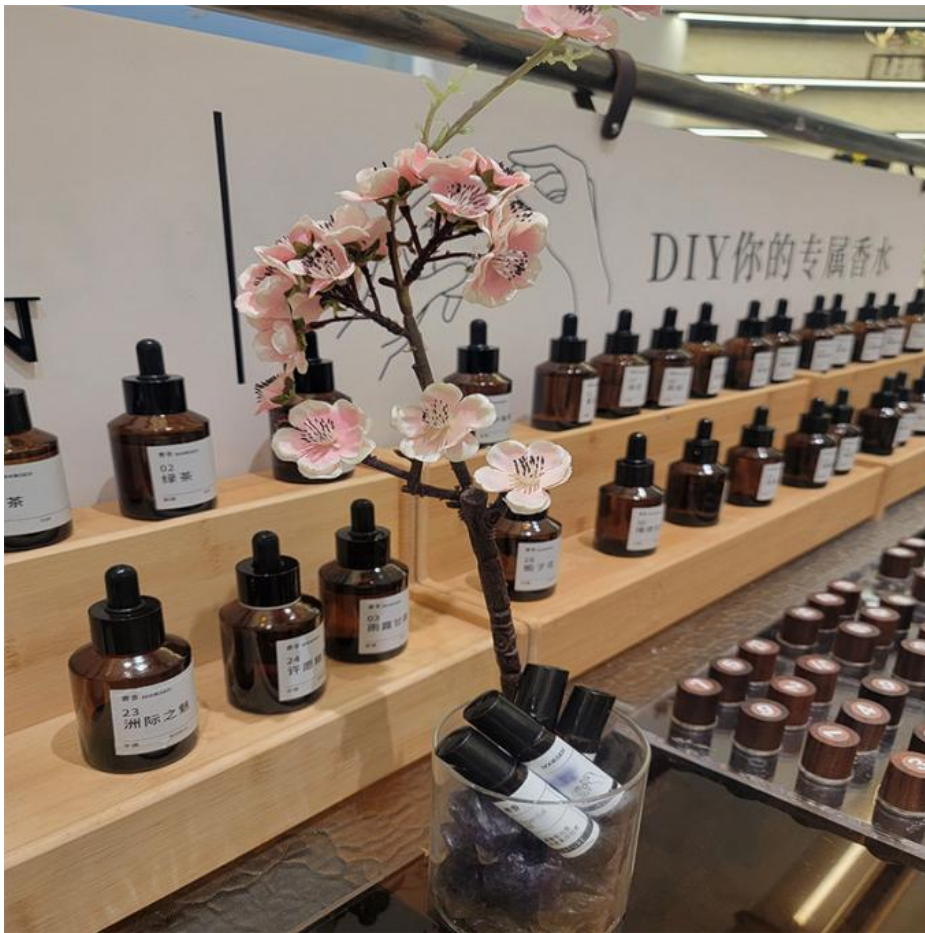

Applications:

One of the most common applications of **Coffee Fragrance Oil (Model Number: LDZ-PL30076)** is in aromatherapy. The oil is infused with the aroma of scented coffee, which can help relieve stress and promote relaxation. It can be used in diffusers, humidifiers, and other aromatherapy devices to create a calming and soothing atmosphere.

Coffee Fragrance Oil is also popular among massage therapists. The oil can be mixed with carrier oils to create a fragrant massage oil that can help ease muscle tension and improve circulation. The aroma of scented coffee can also help stimulate the senses and enhance the overall massage experience.

DIY enthusiasts can also use Coffee Fragrance Oil in various projects. The oil can be added to homemade candles, soaps, and other crafts to add a pleasant coffee scent. It can also be used to create custom perfumes and fragrances.

Overall, Coffee Fragrance Oil is a high-quality product that can be used in a variety of occasions and scenarios. Its pleasant coffee aroma, combined with its various certifications and packaging options, make it a great choice for anyone looking for a versatile and safe essential oil.
