## Product Description

### Product Description:

Queen's Perfume usually refers to some high-end or royal-style perfume brands, whose product designs and fragrances are full of luxury and elegance. Queen's Perfume usually has a complex and layered fragrance, with a variety of spices gradually released from the top notes to the base notes. Common fragrances include: Top notes: citrus, floral or green notes, fresh and bright, giving a pleasant initial impression. Middle notes (core notes): mainly classic aristocratic florals such as rose, jasmine, iris, etc., exuding a warm and soft atmosphere. Base notes: usually have more lasting and stable elements such as woody notes, amber, musk, etc., leaving a deep impression.

It is recommended that these oils be stored in a Cool Dry Place, in tightly sealed containers to ensure maximum freshness and potency. Whether you are a professional looking for high-quality fragrances for your products or an individual looking to create your own custom scents, the Aromatherapy Fragrances product is the perfect choice.
