## Product Description

### Product Description:

**Rose essential oil (Model Number: LDZ-PL50033)** is an essential oil characterized by the scent of roses. It is loved for its sweet, elegant and rich floral fragrance. It is widely used in aromatherapy, perfume, skin care products and home fragrances. It can enhance mood, nourish the skin and bring luxurious olfactory enjoyment. Rose essential oil is often a transparent or light yellow liquid with a light texture and is easy to mix with other essential oils or base oils. It can be used with a variety of essential oils, such as lavender, jasmine, sandalwood, citrus essential oils, etc., to blend a layered aroma. It is often used in perfume making, aromatherapy, skin care products (such as creams, essences, facial masks), body care products (such as shower gels, body lotions) and home fragrance products (such as scented candles, air fresheners).

Our technical support team is always available to answer any questions you may have about our products, including information on usage, compatibility, and storage. We also provide custom blending services to create unique fragrance blends tailored to your specific needs.

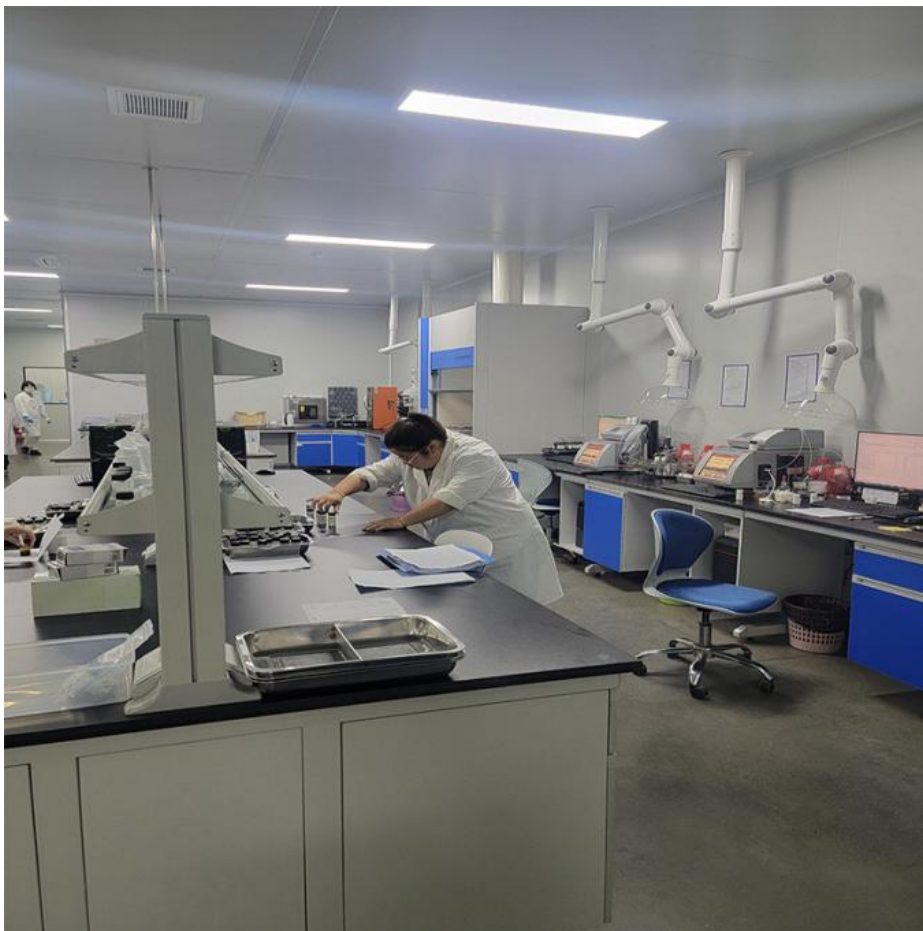

In addition, we offer a range of services to ensure that you receive the best possible experience when using our Fragrance Oils. Our services include:

Fast and reliable shipping

Secure packaging to protect your order during transit

Flexible ordering options, including bulk and custom orders

Product samples to help you find the perfect fragrance for your project

## Packing and Shipping:

### Product Packaging:

A label with the product name and a brief description will be affixed to the box for easy identification.

The Fragrances Oil will be packaged in a sturdy cardboard box to ensure its protection during shipping.

The product will be wrapped in bubble wrap to prevent any damage and to keep it from moving around inside the box.

### Shipping:

The Fragrances Oil will be shipped via a reputable courier service.

Shipping rates will be calculated based on the weight and destination of the package.

Tracking information will be provided to the customer so they can track their package.

The estimated delivery time will depend on the customer's location and the selected shipping method.

#### FAQ:

##### **Do you have the following concerns about our products?**

1. Is the fragrance of your product short-lived?
2. Will the fragrance of your product fade over time?
3. Are you worried that you can't find a similar fragrance?
4. Have you not found a fragrance that meets your requirements?
5. Are you still struggling to find a fragrance that can cover the smell of the product itself?
6. Have you found that the color of your product becomes turbid after adding spices?

##### **We have the ability to solve these problems for you!**

1. We are the source manufacturer of spices, with preferential prices and no middlemen to make a profit. The factory has strong R&D capabilities and can customize various spices.
2. We use high-quality raw materials to produce stable and long-lasting spices. Our perfumers will use raw materials with unique fragrance retention characteristics as the basic structural formula of your product according to your specific needs. The fragrance has excellent transmission and good fragrance retention.
3. We use the internationally advanced gas chromatograph GC-MS to analyze the aroma components of the samples. Experienced analytical engineers read the spectrum. Combined with the refined blending of perfumers, the overall similarity of the imitations is basically controlled at more than 90%.
4. In the selection of the fragrance ratio, the perfumer fully considers the volatility of various spices and the different performances of the products in actual applications, determines the appropriate fragrance, makes the overall fragrance refreshing and pleasant, and thus gives your product a soothing fragrance.
5. We have a professional R&D team, which can create a customized fragrance for you that can cover the smell of your product itself based on the samples you provide or the detailed data of your product.
6. Our professional engineers can not only provide you with suitable fragrances, but also provide you with technical advice.

**For example, we can help you solve the problem of 'the color of the product becomes turbid after adding fragrances. Welcome to contact us!**
