Product Description

Product Description:

Lavender essential oil LDZ-PL50018 is an essential oil widely used in personal care, aromatherapy and home fragrance, known for its unique floral fragrance and soothing properties. It is the core ingredient of many aromatherapy products and can bring a relaxing and calming effect. Lavender essential oil has a classic floral scent that is soft, fresh, slightly herbal and woody. Its scent balances sweetness and nature, creating a tranquil and relaxing atmosphere. It is usually a transparent or light yellow liquid with a light texture and is easy to mix with base oils, lotions or other fragrances. Lavender essential oil is widely used in aromatherapy, scented candles, diffusers, personal care products (such as shower gel, shampoo, body lotion) and household cleaning products, etc., which can effectively soothe emotions, help sleep, and improve indoor air quality.

Our essential oils are the perfect accessories for daily life, adding a touch of luxury to your daily life. It is also ideal for creating a signature scent for your business or product line. Our fragrance essential oils are versatile and can be used for a variety of purposes. They are a must-have for anyone who wants to take their fragrance to the next level.

Features:

Soothing and relaxing effects: Lavender essential oil is known for its calming effects. It can help relieve stress, anxiety and tension. Using it before bed can help improve sleep quality.

Versatility: Lavender essential oil has a wide range of uses. It can be used not only in personal care products such as skin care products and toiletries, but also as household cleaning products and home fragrances, adapting to a variety of life scenarios.

Skin care benefits: Lavender essential oil has mild anti-inflammatory properties and is often used in skin care products to help relieve skin irritation and condition sensitive skin. It is especially suitable for dry or problematic skin.

Aromatherapy applications: Lavender essential oil is one of the most popular essential oils in aromatherapy. Its relaxing aroma can help improve overall mood, relieve fatigue and headaches, and is ideal for daily relaxation.

Easy to mix: Lavender essential oil can be perfectly blended with a variety of other essential oils (such as citrus essential oils, peppermint essential oils, rose essential oils, etc.) to create a more complex aroma, suitable for a variety of aromatherapy and skin care

formulas.

dish wash	0.1%-0.6%	body wash	0.1%-0.5%
soap type	0.8%-1.5%	air freshener	0.4%-0.8%

Applications:

Lavender essential oil has a wide range of applications in daily life and industrial production with its unique floral fragrance and soothing effect. It is not only used to create a relaxing atmosphere, but also widely used in many fields due to its versatility. **The following are its main applications in these two major fields:**

Application in daily life:

Aromatherapy: Lavender essential oil is most commonly used in aromatherapy, and its relaxing and calming aroma can help relieve stress, anxiety and insomnia. Using aromatherapy lamps, aromatherapy diffusers or aromatherapy candles at home can quickly create a quiet and peaceful atmosphere, especially suitable for use before bedtime to improve sleep quality.

Personal care products: Lavender essential oil is widely used in personal care products such as shower gel, shampoo, skin cream, massage oil, handmade soap, etc., and its fragrance can bring a pleasant experience during bathing.

Household cleaning: In daily cleaning, lavender essential oil can be added to homemade detergents or laundry detergents to bring a fresh and natural fragrance, and at the same time has a slight bactericidal effect, making the air at home fresher and more pleasant, especially in places that need to be kept clean, such as kitchens and bathrooms.

Home Fragrance: Lavender essential oil can be used in home diffusers, scented candles and air fresheners to help remove indoor odors and maintain fresh air. It is especially suitable for being placed in bedrooms, living rooms and bathrooms to maintain a relaxing environment for a long time.

Massage and Care: In terms of body relaxation, lavender essential oil is often used in massage oils. After being blended with base oils, it can relax muscles and relieve fatigue. Many people use it in daily skin care and scalp massage to enjoy its calming and soothing effects.

Application in Industrial Production:

Personal Care and Cosmetics Manufacturing: In the cosmetics and personal care industry, lavender essential oil is widely used in the fragrance formulation of various products, including perfumes, face creams, shower gels, hand creams, etc. Its soothing properties and natural aroma make it a popular ingredient in mild skin care products. It can also regulate skin oil secretion and is suitable for all skin types.

Home Fragrance Products: In industrial production, lavender essential oil is often used to manufacture home aromatherapy products such as scented candles, air fresheners, aromatherapy pendants and diffusers. Lavender essential oil has a long-lasting fresh aroma and is ideal for creating a comfortable home atmosphere.

Detergent production: Lavender essential oil is often added to industrially produced detergents and laundry detergents due to its mild antibacterial properties. Its natural aroma can mask the pungent taste of chemical detergents, giving the product a more popular fragrance, and is widely used in cleaning products for homes and commercial places.

Car fragrance products: In the automotive industry, lavender essential oil is often used in car air fresheners and car aromatherapy pendants to eliminate odors in the car with its fresh aroma and create a relaxing driving environment. Its oil-water solubility makes it suitable for various in-car fragrance diffusion devices.

Industrial flavor blending: In the production of flavors and fragrances, lavender essential oil is used as a base fragrance and is often blended with other essential oils (such as citrus, wood, floral essential oils, etc.) for the fragrance base of various perfumes and aromatherapy products, giving the products a natural and lasting fragrance.
