Product Description

Product Description:

Our fragrance perfume oil is a synthetic bakery flavor that is made from the highest-quality ingredients, ensuring that it is safe for use in food and meets strict food grade fragrance oil standards. It is also a scented essential oil that can be used to add a delightful aroma to your home or office.

When it comes to storage, our Fragrances Oil should be kept in a cool, dry place away from direct sunlight. This will help to preserve its quality and ensure that it remains fresh for as long as possible. And with its versatile application, you can use this fragrance perfume oil in a wide variety of recipes and dishes, making it a must-have for any kitchen.

So if you're looking for a high-quality fragrance perfume oil that can be used for both daily flavor and food flavor applications, look no further than our Fragrances Oil. With its pure artificial dried fruit flavor, synthetic bakery flavor, and scented essential oil properties, it is sure to become a staple in your kitchen and home.

Why Choose Us?

1.Products advantages

Liquid form, storage at room temperature
Anti-corrosion, anti-oxidation, stability
High level of flavor reproduction
Customized services

2.Raw material advantage

Fresh:Raw materials are processed quickly from place of origin to factory to ensure freshness.
Nature:Have cooperative base in raw material the place of origin.
Traceable:Specially-assigned professional management.Strictly control the quality of raw materials

3.Technology advantage

Low temperature cycle stage extraction,analyzed the advantages and disadvantages of various extraction methods, combined with the characteristics of raw materials, geographical advantages and equipment output value and other factors, through repeated scientific

experiments, finally confirmed that low temperature sub-extraction method has become the bottom extraction technology of all kinds of concentrate.

4.Break through technical difficulties

The extraction process was completed under the condition of low temperature, and the good components were better preserved in the extraction process, which overcame the corruption of the extraction solution and the dissolution of impurities in the traditional extraction process. Breaking through the technical problems of insufficient head fragrance of flower concentrates, turbidity of tea concentrates, obvious bitter and astringent flavour of coffee concentrates, oxidation of citrus concentrates.
