Why Choose Us?

1.Products advantages

Liquid form, storage at room temperature
Anti-corrosion, anti-oxidation, stability
High level of flavor reproduction
Customized services

2.Raw material advantage

Fresh:Raw materials are processed quickly from place of origin to factory to ensure freshness.

Nature:Have cooperative base in raw material the place of origin.

Traceable:Specially-assigned professional management.Strictly control the quality of raw materials

3.Technology advantage

Low temperature cycle stage extraction,analyzed the advantages and disadvantages of various extraction methods, combined with the

characteristics of raw materials, geographical advantages and equipment output value and other factors, through repeated scientific experiments, finally confirmed that low temperature sub-extraction method has become the bottom extraction technology of all kinds of concentrate.

4.Break through technical difficulties

The extraction process was completed under the condition of low temperature, and the good components were better preserved in the extraction process, which overcame the corruption of the extraction solution and the dissolution of impurities in the traditional extraction process. Breaking through the technical problems of insufficient head fragrance of flower concentrates, turbidity of tea concentrates, obvious bitter and astringent flavour of coffee concentrates, oxidation of citrus concentrates.

Applications:

Citrus Fragrance Skin Care Fragrance Oil(Model: LDZ-PL80022) is a high-quality essential oil for a wide range of personal and industrial uses. It is a liquid fragrance concentrate that can be used for daily fragrance, industrial fragrance, fruit fragrance, and skin care fragrance oil. Skin care fragrance is produced in Guangdong, China and is certified by COA, MSDS, IFRA, CE, and ISO. **Citrus essential oils are widely used in daily life and industrial production, especially in the production of skin care products, mainly including:**

Applications in daily life

Aromatherapy: Used in aromatherapy lamps or diffusers to create a fresh and pleasant atmosphere, which helps to improve mood and relieve stress.

Household cleaning: Often added to homemade cleaners, due to its antibacterial properties, it can effectively clean and disinfect while leaving a fresh aroma.

Air fresheners: Citrus essential oils are often used in air fresheners to help remove odors and improve indoor air quality.

Application in industrial production

Skin care products: Creams and essences: Due to its antioxidant and whitening effects, citrus essential oils are often used in creams, essences and lotions to help improve skin tone and increase skin radiance.

Facial masks: They can be added to homemade or commercial facial masks to enhance skin care effects.

Care products: Shampoo and conditioner: Its fresh aroma and antibacterial properties make it a popular ingredient in shampoo and conditioner to help clean the scalp and hair. Shower gel: Adding citrus essential oils to shower gel can bring a pleasant bathing experience.

Cosmetics: Citrus essential oils are used as natural fragrances in some cosmetics to increase the attractiveness of the product.

Food additives: In some cases, citrus essential oils are also used in the food industry as natural fragrances to enhance the taste and aroma of food.
