Product Description

Product Description:

The Blending Essential Oils product is also known as Lavender Fragrance Essence Oil, Lavender Flavors Fragrance, Lavender Flavors, or Lavender Essence Liquid Oil. This product is a must-have for anyone who wants to experience the calming and relaxing effects of Lavender. The product is perfect for use in aromatherapy, home fragrances, and personal care products, among others.

The Blending Essential Oils product is a perfect substitute for Essential Oils, especially for those who prefer synthetic products. The product is carefully formulated to provide the same benefits as Essential Oils, without the high cost. The product is also easier to use and blend with other products, making it a popular choice among enthusiasts.

The Blending Essential Oils product is also perfect for those who want to create their own unique fragrances. The Lavender Flavour Concentrate is versatile and can be blended with other fragrances to create new and exciting aromas. The product is easy to mix and is compatible with a wide range of other fragrance oils.

Overall, the Blending Essential Oils product is a must-have for anyone who wants to experience the benefits of Lavender Fragrance Oil Essence Oil. Whether you are looking to create your own unique fragrances or want to enjoy the calming effects of Lavender, this product is perfect for you. So why wait? Grab your own Blending Essential Oils product today and start enjoying the many benefits it has to offer!

| Solubility | The 1ml sample is soluble in 3ml volume fraction of 90% ethanol, a clear and transparent liquid | Qualified | Confirmed |

Applications:

Lavender essential oil(Model Number:LDZ-PL50018) is widely used in daily life and industrial production due to its unique aroma and multiple functions. It is not only used for personal care, but also involves home cleaning, food, medicine and other fields. The main applications include:

Personal care and beauty: used in skin care products, shower gels, shampoos, etc. to help soothe the skin, relieve stress, and promote sleep and reduce anxiety in aromatherapy.

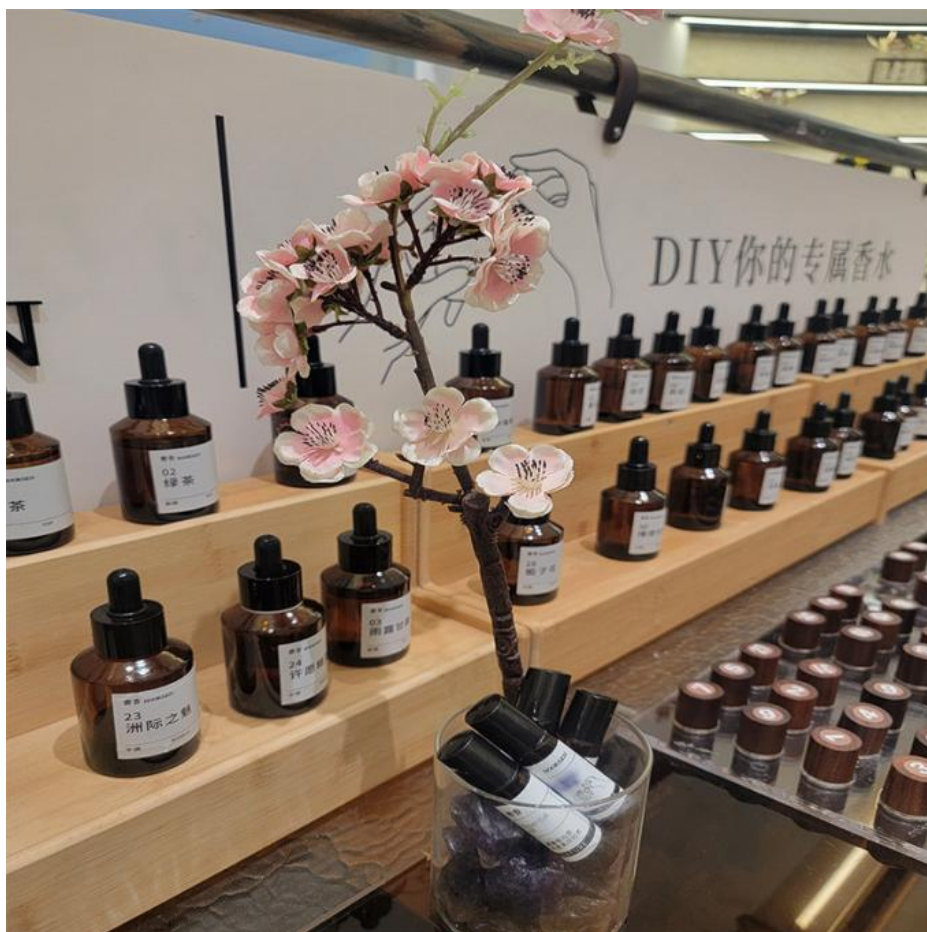

Household cleaning: widely used in laundry detergent, laundry liquid, air freshener, etc., with antibacterial and deodorizing effects, bringing a long-lasting and fresh aroma.

Industrial production: commonly found in perfumes, fragrance products, cosmetics, and can also be used in food seasoning and high-end beverages.

Health and medicine: due to its antibacterial and anti-inflammatory properties, it is used in disinfection products and analgesic and soothing products.

Textile and home: used in fabric fragrances and softeners to enhance product aroma and usage experience. Especially in laundry products, it brings fresh aroma and added value.

The use of lavender essential oil is not limited to aroma. Its antibacterial, anti-inflammatory, sedative and other functions make it an important application in many fields. Especially in laundry detergent and liquid laundry detergent, it not only brings a fresh fragrance, but also increases the added value of the product and improves the consumer experience.

Support and Services:

Our Blending Essential Oils come with comprehensive technical support and services to ensure that you have the best experience with our product. Our team of experts are available to answer any questions you may have regarding the blending of essential oils, and can provide guidance on creating custom blends to suit your specific needs. Additionally, we offer resources and educational materials on the safe and effective use of essential oils, as well as tips for getting the most out of your blending experience. With our technical support and services, you can feel confident in using our Blending Essential Oils for all of your aromatherapy needs.

Packing and Shipping:

Product Packaging:

Our fragrance essence oils come in a stable plastic or iron bottle. The bottle is then carefully placed in a sturdy cardboard box with cushioning material to ensure safe delivery to your doorstep.

Shipping:

We offer fast and reliable shipping for our fragrances oil. All orders are carefully packaged to ensure safe delivery. Shipping is available to most countries worldwide, and delivery times may vary depending on location. Customers will receive a tracking number to monitor their package's status.

FAQ:

Do you have the following concerns about our products?

1. Does your product smell short?
2. Does the fragrance of your product fade over time?
3. Are you worried that you won't find a similar scent?
4. Have you not found a fragrance that meets your requirements?
5. Are you still looking for a scent that can mask the smell of the product itself?
6. Do you find that the color of your product becomes cloudy after adding spices?

We have the ability to solve these problems for you!

1. We are the source of spices, price concessions, no middlemen to earn profits. Factory R & D ability is strong, can customize a variety of spices.
 2. We use high-quality raw materials to produce stable and lasting spices. Our perfumers will use raw materials with unique fragrance retention characteristics as the basic structural formula of your products according to your specific needs, so that the fragrance has excellent transmission and good fragrance retention.
 3. We use the internationally advanced gas chromatograph GC-MS to analyze the aroma components of the samples. Experienced analysis engineers read the spectrum, combined with the refined allocation of perfumers, the overall similarity of the imitation is basically controlled above 90%.
 4. In the selection of spice ratio, the perfumer fully considers the volatility of various spices and the different properties of the product in practical application, and determines the appropriate fragrance to make the overall fragrance fresh and pleasant, thus giving your product a soothing aroma.
 5. We have a professional R & D team that can create a customized fragrance that can cover the smell of your product according to the samples you provide or the detailed data of your product.
 6. Our professional engineers can not only provide you with the right spices, but also provide you with technical advice.
- For example, we can help you solve the problem of 'cloudy product color after adding spices'.
