## Product Description

### Product Description:

#### Discover Our Premium Essential Oils Collection

Our essential oils feature a diverse range of product types, including floral rose shower gel fragrances, floral fragrances, and exquisite rose scents. Each product is meticulously crafted to cater to your scent preferences, ensuring a delightful experience every time.

#### High-Quality Rose Essential Oil

Extracted from fresh rose petals, our rose essential oil is a premium choice for aromatherapy, beauty, and daily care. Its unique aroma elevates mood, relieves stress, and deeply nourishes the skin.

#### Versatile Formulation Additive

With an ideal addition rate of 0.1%-0.5%, our essential oils are the perfect complement to any formulation needing a light, enchanting scent. Whether crafting shower gels, soaps, or other scented products, our oils deliver exceptional results.

#### Natural and Synthetic Blends

Our essential oils blend both natural and synthetic components, providing the best of both worlds. Natural oils offer a fresh, authentic fragrance, while synthetic oils add complexity and depth.

#### Wide Range of Applications

Our aromatic rose fragrances and floral rose oils are perfect for creating scented candles, perfumes, or any aromatic product. If you seek premium perfume essences or scented oils, our collection is sure to delight your senses with its exquisite scents.

soap type	0.8%-1.5%	air freshener	0.4%-0.8%

## Applications:

**Plant Fragrance Oil LDZ-PL20052** is light yellow or colorless in color and has a floral rose scent, making it ideal for making shower gels. It is a floral rose shower gel perfume, shower gel perfume, floral fragrance and rose essence, also known as rose fragrance, aromatic rose essence, rose essential oil, rose fragrance and floral fragrance oil.

**Application in daily life:**

Aromatherapy: Using an aromatherapy machine or scented candles at home, rose essential oil can create a warm and relaxing environment and enhance the home atmosphere.

Skin care products: Added to creams, serums or shower gels, rose essential oil can nourish the skin, improve skin texture, and bring a smooth and delicate effect.

Cleaners: The natural antibacterial properties of rose essential oil make it an ideal detergent ingredient. It can be used in homemade cleaners to increase the cleaning effect and give the space a fresh aroma.

Laundry: Adding a few drops of rose essential oil to the laundry water can effectively remove odors while giving clothes a light floral scent.

**Application in industrial production:**

Cosmetics industry: Rose essential oil is widely used in various skin care products, perfumes and bath products, and is favored for its unique aroma and skin care properties.

Cleaning products: In industrial cleaners, rose essential oil can not only increase the fragrance of the product, but also improve the cleaning effect and attract more consumers.

Food industry: As a natural fragrance, rose essential oil is used in food and beverages to add a unique flavor to the product.

Home products: Used in home air fresheners, candles and aromatherapy products, rose essential oil can enhance the product grade and attract consumers.

### Support and Services:

Our Fragrances Oil product comes with technical support and services to ensure that our customers have a seamless user experience. Our team of experts is available to answer any questions or concerns you may have regarding the use of our product. Our technical support includes:

The blending essential oils come in a stable plastic or iron bottle

The box also includes a user manual and a list of the ingredients used in the oils.

The bottles are securely packed in a cardboard box with bubble wrap for extra protection.

#### **Product Shipping:**

Shipping time may vary depending on the destination.

The blending essential oils are shipped using standard shipping.

Shipping is available within the United States and internationally.

Tracking information is provided to the customer upon shipment.

### FAQ:

#### **Do you have the following concerns about our products?**

1. Is the fragrance of your product short-lived?
2. Will the fragrance of your product fade over time?
3. Are you worried that you can't find a similar fragrance?
4. Have you not found a fragrance that meets your requirements?
5. Are you still struggling to find a fragrance that can cover the smell of the product itself?
6. Have you found that the color of your product becomes turbid after adding spices?

#### **We have the ability to solve these problems for you!**

1. We are the source manufacturer of spices, with preferential prices and no middlemen to make a profit. The factory has strong R&D capabilities and can customize various spices.
  2. We use high-quality raw materials to produce stable and long-lasting spices. Our perfumers will use raw materials with unique fragrance retention characteristics as the basic structural formula of your product according to your specific needs. The fragrance has excellent transmission and good fragrance retention.
  3. We use the internationally advanced gas chromatograph GC-MS to analyze the aroma components of the samples. Experienced analytical engineers read the spectrum. Combined with the refined blending of perfumers, the overall similarity of the imitations is basically controlled at more than 90%.
  4. In the selection of the fragrance ratio, the perfumer fully considers the volatility of various spices and the different performances of the products in actual applications, determines the appropriate fragrance, makes the overall fragrance refreshing and pleasant, and thus gives your product a soothing fragrance.
  5. We have a professional R&D team, which can create a customized fragrance for you that can cover the smell of your product itself based on the samples you provide or the detailed data of your product.
  6. Our professional engineers can not only provide you with suitable fragrances, but also provide you with technical advice. For example, we can help you solve the problem of 'the color of the product becomes turbid after adding fragrances'.
