## Product Description

### Product Description:

**Walnut essential oil** is a natural extract with rich nutrients and many unique characteristics. It is widely used in the beauty, skin care and food industries. Walnut essential oil is extracted from high-quality walnut kernels through cold pressing, retaining its natural aroma and nutrients. This essential oil has a light yellow color and a soft nutty aroma, suitable for aromatherapy, skin care formulations and cooking.

#### Features:

Rich nutrients: Walnut essential oil is rich in omega-3 fatty acids, vitamin E and antioxidants, which help nourish the skin and improve skin texture.

Anti-aging effect: Its antioxidant properties can resist free radicals, slow down the aging process, and help the skin maintain a youthful glow.

Moisturizing ability: Walnut essential oil can deeply moisturize the skin and is suitable for dry skin. It effectively relieves dryness and roughness.

Natural aroma: Its unique nutty aroma is not only pleasant, but also creates a comfortable environment, suitable for use in fragrance products.

Versatility: In addition to skin care, walnut essential oil can also be used as a cooking oil to add fragrance and nutritional value to dishes.

Walnut essential oil has become a popular choice in the skin care and food industries due to its superior properties, meeting consumer demand for natural, highly effective products.

### Technical Parameters:

Color and Appearance	Light yellow or colourless liquid oil	Qualified	Confirmed
----------------------	---------------------------------------	-----------	-----------

Saponification Value	188-194	190.2	Confirmed
Moisture and Volatile Matter Content	≤0.1	0.03	Confirmed

Acid Value	≤3.0	1.3	Confirmed
Peroxide Value	≤7.5	5.0	Confirmed
Total content of oleic acid and Linoleic acid	≥75%	4.0	Confirmed

### Applications:

Plant essence LDZ-PL100022 is a light yellow or colorless liquid aromatic essence. It is an aromatic perfume essence produced in Guangdong, China and certified by COA, MSDS, IFRA, CE and ISO. This product contains walnut extract and has a walnut scent. Walnut essential oil has a wide range of applications in daily life and industrial production due to its unique aroma and rich nutrients. **The following are the main applications of walnut essential oil:**

#### Applications in daily life

**Aromatherapy:** Walnut essential oil is often used in aromatherapy lamps and diffusers to help relieve stress, improve mood, and create a relaxing environment.

**Skin care products:** Due to its antioxidant and moisturizing properties, walnut essential oil is widely used in creams, body lotions and essential oil massages for dry skin and enhances skin radiance.

**Home cleaning:** As a natural ingredient, walnut essential oil can be added to homemade cleaners to effectively remove dirt while bringing a light nutty aroma.

**Cooking and beverages:** Walnut essential oil can be used as a flavoring agent to add a unique flavor to dishes and beverages and enhance the overall nutritional value.

#### Application in industrial production

**Cosmetics industry:** Walnut essential oil is widely used in skin care products, shampoos and perfumes, enhancing the attractiveness of products with its natural ingredients and aroma.

**Food and beverage industry:** As a natural seasoning, walnut essential oil is used in food and beverages to enhance flavor and meet consumers' needs for health and nature.

**Detergent production:** Walnut essential oil is incorporated into the formula of detergents to increase the cleaning effect and provide a pleasant aroma to enhance user experience.

**Aromatherapy products:** In the production of candles, soaps and aromatherapy sprays, the unique aroma of walnut essential oil makes these products more competitive in the market.

### Packing and Shipping:

#### Product Packaging:

- Essential oils are carefully packed in leak-proof, airtight plastic or iron drums.
- Bottles are labeled with the name of the fragrance and the volume of the essential oil.
- The bottles are then placed in sturdy cardboard boxes filled with packing materials to ensure safe transportation.

#### Shipping:

- We offer worldwide shipping services to our customers.
- We use reliable and efficient shipping companies to ensure timely delivery.
- Shipping charges may vary depending on the destination and weight of the order.
- Customers will receive a tracking number once the order is shipped.

#### FAQ:

##### **Do you have the following concerns about our products?**

1. Is the fragrance of your product short-lived?
2. Will the fragrance of your product fade over time?
3. Are you worried that you can't find a similar fragrance?
4. Have you not found a fragrance that meets your requirements?
5. Are you still struggling to find a fragrance that can cover the smell of the product itself?
6. Have you found that the color of your product becomes turbid after adding spices?

##### **We have the ability to solve these problems for you!**

1. We are the source manufacturer of spices, with preferential prices and no middlemen to make a profit. The factory has strong R&D capabilities and can customize various spices.
2. We use high-quality raw materials to produce stable and long-lasting spices. Our perfumers will use raw materials with unique fragrance retention characteristics as the basic structural formula of your product according to your specific needs. The fragrance has excellent transmission and good fragrance retention.
3. We use the internationally advanced gas chromatograph GC-MS to analyze the aroma components of the samples. Experienced analytical engineers read the spectrum. Combined with the refined blending of perfumers, the overall similarity of the imitations is basically controlled at more than 90%.
4. In the selection of the fragrance ratio, the perfumer fully considers the volatility of various spices and the different performances of the products in actual applications, determines the appropriate fragrance, makes the overall fragrance refreshing and pleasant, and thus gives your product a soothing fragrance.
5. We have a professional R&D team, which can create a customized fragrance for you that can cover the smell of your product itself based on the samples you provide or the detailed data of your product.
6. Our professional engineers can not only provide you with suitable fragrances, but also provide you with technical advice. For example, we can help you solve the problem of 'the color of the product becomes turbid after adding fragrances'.
