Product Description

Product Description:

Sakura Fragrance Oil is an essential oil made from natural cherry blossom extract, with a soft and elegant floral scent, making it a very healing aroma product. Our Sakura Fragrance Oil is soluble in oil and water, making it perfect for use in a variety of products such as soaps, candles and perfumes. The fresh and pleasant aroma of cherry blossoms makes people feel soothing and calm, suitable for use when relaxing, meditating or sleeping. This Sakura Fragrance Oil is not only suitable for aromatherapy, but can also be used with massage oils and baths to give people a pleasant aroma experience.

The aroma of our essential oil is like cherry blossoms or cherry blossoms, which is a popular and beloved scent. It is light and floral with a sweet and fresh undertone. This scent is perfect for use in a variety of products, including body lotions, bath bombs and diffusers.

Our essential oil comes in a variety of packaging, including plastic bottles and iron bottles. This makes it easy to store and use in your favorite DIY projects, ensuring that you always have this pleasant scent.

Whether you are making candles, making your own perfume or adding sweetness to lotions, our Sakura Fragrance Oil is a perfect addition to your collection. Order now and experience the joy and happiness that comes with the sweet scent of cherry blossoms.

Applications:

Cherry blossom essential oil is widely used in daily life and industrial production due to its elegant and pleasant aroma and multiple functions. From personal care, home fragrance, to beauty skin care, fragrance product production and other fields, cherry blossom essential oil provides users with a comfortable experience. **The following are the various applications of cherry blossom essential oil:**

1. Application in daily life

Personal care and relaxation: Cherry blossom essential oil can be used in daily aromatherapy, such as adding it to aromatherapy lamps or aromatherapy diffusers to help create a quiet and soothing atmosphere. When used, the aroma of cherry blossoms can effectively relieve stress and relax the mood, and is suitable for meditation, yoga or bathing.

Massage and skin care: Adding an appropriate amount of cherry blossom essential oil to massage oil can help soothe the skin, enhance skin radiance, and have antioxidant effects. Its mild properties are also suitable for people with sensitive skin and help improve skin condition.

Home fragrance: Cherry blossom essential oil can be used in the home environment, through fragrance spray or aromatherapy candles, it brings elegant floral fragrance and creates a fresh and natural atmosphere for the room. At the same time, the aroma of cherry blossoms can cover up odors and make the home space more comfortable.

2. Application in industrial production

Manufacturing of cosmetics and skin care products: Cherry essential oil is widely used in cosmetics and skin care products due to its moisturizing and antioxidant properties, especially in the fields of creams, lotions, and cleansing products. Cherry essential oil gives the product a light and elegant fragrance and improves the skin care effect.

Fragrance product development: Cherry essential oil is a common ingredient in fragrance products such as perfumes, scented candles,

and fragrance diffusers, giving the product a unique floral fragrance, making the fragrance more recognizable and market attractive. At the same time, cherry essential oil also has a long-lasting fragrance effect, which is suitable for the development of a variety of fragrance products.

Household cleaning products: Cherry essential oil is widely used in household cleaning products such as scented cleaners, laundry detergents, and air fresheners. Cherry essential oil not only brings a fresh and natural fragrance, but also improves the cleaning effect, and is suitable for cleaning various areas in the home environment.

FAQ:

Do you have the following concerns about our products?

1. Is the fragrance of your product short-lived?
2. Will the fragrance of your product fade over time?
3. Are you worried that you can't find a similar fragrance?
4. Have you not found a fragrance that meets your requirements?
5. Are you still struggling to find a fragrance that can cover the smell of the product itself?
6. Have you found that the color of your product becomes turbid after adding spices?

We have the ability to solve these problems for you!

1. We are the source manufacturer of spices, with preferential prices and no middlemen to make a profit. The factory has strong R&D capabilities and can customize various spices.
 2. We use high-quality raw materials to produce stable and long-lasting spices. Our perfumers will use raw materials with unique fragrance retention characteristics as the basic structural formula of your product according to your specific needs. The fragrance has excellent transmission and good fragrance retention.
 3. We use the internationally advanced gas chromatograph GC-MS to analyze the aroma components of the samples. Experienced analytical engineers read the spectrum. Combined with the refined blending of perfumers, the overall similarity of the imitations is basically controlled at more than 90%.
 4. In the selection of the fragrance ratio, the perfumer fully considers the volatility of various spices and the different performances of the products in actual applications, determines the appropriate fragrance, makes the overall fragrance refreshing and pleasant, and thus gives your product a soothing fragrance.
 5. We have a professional R&D team, which can create a customized fragrance for you that can cover the smell of your product itself based on the samples you provide or the detailed data of your product.
 6. Our professional engineers can not only provide you with suitable fragrances, but also provide you with technical advice. For example, we can help you solve the problem of 'the color of the product becomes turbid after adding fragrances'.
