## Product Description

### Product Description:

Cotton essential oil is often loved for its fresh, mild aroma and is often used in fragrance, skin care and home products. **Fragrance Oil:** It has a light, fresh aroma that creates a comfortable environment. It can be used in aromatherapy lamps, diffusers or baths to help you relax.

**Skin Care:** Add cotton essential oil to lotions, creams or body oils to provide moisturizing effects while leaving a fresh aroma. The gentle aroma is suitable for sensitive skin and reduces irritation. **Home Cleaning Products:** Add cotton essential oil to detergents to make the cleaning process more pleasant and remove odors. The aroma can make the home environment more welcoming.

Overall, blended essential oil products are a must-have for anyone who wants to create high-quality perfumes and other products. Its fragrance is of the highest quality, and its essential oil properties make it perfect for a variety of applications. Whether you are a professional perfumer or just someone who likes to make your own fragrances at home, this product is sure to meet your needs.

Solubility	The 1ml sample is soluble in 3ml volume fraction of 90% ethanol, a clear and transparent liquid	Qualified	Confirmed
------------	---	-----------	-----------

**Reference Addition:**

product type	reference addition(%)	produce type	reference addition(%)
perfume	5%-15%	paint	0.05%-0.2%
laundry detergents	0.1%-0.5%	candle	1.2%-3%
shampoo and hair conditioner	0.1%-0.5%	toys	0.1%-0.5%
dish wash	0.1%-0.6%	body wash	0.1%-0.5%
beauty machine	0.8%-1.5%	air freshener	0.4%-0.8%

**Applications:**

Cotton essential oil is widely used in daily life and industrial production due to its unique aroma and versatility. **Here are some of the main application scenarios:**

**Application in daily life**

Home fragrance: Cotton essential oil is often used in air fresheners, scented candles and diffusers. Its fresh and natural aroma can enhance the comfort of the home environment and create a relaxing atmosphere.

Skin care products: Many skin care brands add cotton essential oil to creams, lotions and body oils. Its mild aroma and moisturizing properties are suitable for all skin types, especially sensitive skin.

Cleaning products: Adding cotton essential oil to household cleaners can not only enhance the cleaning effect, but also remove odors, leaving a fresh aroma, making the cleaning process more pleasant.

Aromatherapy: In aromatherapy, cotton essential oil is used to relax the body and mind and relieve stress. It can be used through massage oil or bath products to bring a relaxing experience for the body and mind.

**Application in industrial production**

Fragrances and fragrances: Cotton essential oil is one of the commonly used ingredients in the fragrance industry. It is widely used in the manufacture of perfumes, skin care products and toiletries to enhance the market competitiveness of products.

Food and Beverages: In some foods and beverages, cotton essential oil is used as a natural fragrance to give the product a unique flavor and aroma, which is loved by consumers.

Detergents and Cleaners: Cotton essential oil is also added to many industrial cleaners and laundry detergents to enhance the cleaning effect and aroma of the product, making it more attractive.

Home Furnishings: When manufacturing home textiles (such as sheets, towels, etc.), cotton essential oil can be used as an ingredient to add fragrance to enhance the comfort and attractiveness of the product.

With its fresh and natural aroma and diverse application areas, cotton essential oil has become an important ingredient in daily life and industrial production. Whether in improving the home atmosphere or enhancing product competitiveness, its wide application potential makes it a popular choice in the field of fragrance and cleaning.

## FAQ:

### Do you have the following concerns about our products?

1. Is the fragrance of your product short-lived?
2. Will the fragrance of your product fade over time?
3. Are you worried that you can't find a similar fragrance?
4. Have you not found a fragrance that meets your requirements?
5. Are you still struggling to find a fragrance that can cover the smell of the product itself?
6. Have you found that the color of your product becomes turbid after adding spices?

### We have the ability to solve these problems for you!

1. We are the source manufacturer of spices, with preferential prices and no middlemen to make a profit. The factory has strong R&D capabilities and can customize various spices.
  2. We use high-quality raw materials to produce stable and long-lasting spices. Our perfumers will use raw materials with unique fragrance retention characteristics as the basic structural formula of your product according to your specific needs. The fragrance has excellent transmission and good fragrance retention.
  3. We use the internationally advanced gas chromatograph GC-MS to analyze the aroma components of the samples. Experienced analytical engineers read the spectrum. Combined with the refined blending of perfumers, the overall similarity of the imitations is basically controlled at more than 90%.
  4. In the selection of the fragrance ratio, the perfumer fully considers the volatility of various spices and the different performances of the products in actual applications, determines the appropriate fragrance, makes the overall fragrance refreshing and pleasant, and thus gives your product a soothing fragrance.
  5. We have a professional R&D team, which can create a customized fragrance for you that can cover the smell of your product itself based on the samples you provide or the detailed data of your product.
  6. Our professional engineers can not only provide you with suitable fragrances, but also provide you with technical advice. For example, we can help you solve the problem of 'the color of the product becomes turbid after adding fragrances'.
