Product Description

Product Description:

The Car Perfume product is designed to be used in small quantities, with an add ratio of 5%-15%. This means that a little goes a long way, and the product is highly concentrated. It is recommended to start with a lower add ratio and adjust as needed to achieve the desired scent strength.

This fragrance oil is available in both plastic and iron barrels, making it easy to store and transport. The packaging is designed to keep the product fresh and prevent contamination. The Car Perfume product is an eco-friendly option for those looking for a sustainable fragrance solution.

When it comes to fragrance and flavors, the Car Perfume product is a top choice. It is made with high-quality ingredients that provide a long-lasting scent. The flavor fragrance is designed to be pleasant and not overpowering, making it perfect for use in a variety of applications.

The essence fragrance of the Car Perfume product is designed to be both refreshing and invigorating. It provides a subtle scent that is not too strong but is still noticeable. This makes it an ideal choice for those who want to enjoy a pleasant fragrance without overwhelming their senses.

In summary, the Car Perfume product is a versatile and high-quality fragrance oil that is suitable for a variety of applications. It is both oil and water soluble, making it easy to use and adjust to achieve the desired scent strength. The packaging is designed to keep the product fresh and prevent contamination, and it is an eco-friendly option for those looking for a sustainable fragrance solution. The flavor fragrance and essence fragrance of this product are both pleasant and long-lasting, making it a top choice for those in need of a quality fragrance solution.
