Product Description

Product Description:

Tom (Men) Fragrance Essence is a luxury perfume designed for modern men, blending the aroma of wood, spices and fresh citrus to show unique masculine charm. Its high-concentration perfume formula only needs a small amount of use to release a lasting and charming fragrance, making the wearer full of confidence and charm. The top notes of the perfume are fresh citrus and vanilla, the middle notes are infused with warm wood and spices, and the base notes are rich in musk, with rich layers and various changes. Whether it is daily wear, formal occasions or dating, it can perfectly adapt to enhance personal temperament and become the ideal choice for every tasteful man. Tom (Men) Fragrance Essence not only has a long-lasting fragrance effect, but also has a delicate and simple bottle design, making it an ideal gift.

In industrial production, Tom (Men) Fragrance Essence can effectively enhance the sensory appeal of the product and enhance the consumer's experience with its rich and lasting fragrance. In addition, its high concentration of fragrance ingredients makes it both efficient and cost-saving in the production process, suitable for large-scale production, and ensures that each product can maintain a consistent high-quality fragrance effect. We believe that Tom (Men) Fragrance Essence is an ideal choice to enhance product value and market competitiveness.

Features:

High-concentration fragrance, enhance product value

Tom (Men) Fragrance Essence adopts a high-concentration formula, which can provide a rich and lasting fragrance in a small amount, effectively enhancing the sensory appeal of the perfume and improving the market competitiveness of the product.

Long-lasting fragrance, increase consumer experience

The fragrance can maintain the stability of the fragrance for a long time, ensuring that the fragrance of the final product is not easy to volatilize or weaken, thereby improving consumer satisfaction and loyalty.

Efficient formula, reduce production costs

Tom (Men) Fragrance Essence has high concentration and high efficiency. While ensuring product consistency and high-quality fragrance effects, it can reduce the use of raw materials and production costs.

Strong stability, suitable for large-scale production

The fragrance has good stability during production, storage and transportation, suitable for large-scale industrial production, ensuring that each batch of products can maintain a consistent high-quality fragrance.

Technical Parameters:

Color and Appearance	Light yellow or colourless liquid oil	Qualified	Confirmed

Acid Value	≤3.0	1.3	Confirmed
Peroxide Value	≤7.5	5.0	Confirmed
Total content of oleic acid and Linoleic acid	≥75%	4.0	Confirmed

Applications:

Tom (Men's) Fragrance Essence is widely used in industrial production. With its high-concentration formula and lasting fragrance, a small amount of use can bring a strong masculine fragrance to the product, enhancing the product's market appeal and consumer experience. Its fragrance is highly stable and can keep the fragrance from volatile during long-term storage and transportation, ensuring the consistency of product quality. In addition, Tom (Men's) Fragrance Essence is suitable for a variety of product types and has strong adaptability. Due to its efficient formula, it can effectively reduce production costs and improve production efficiency. Products using this fragrance can not only enhance the brand image, but also attract target consumers, especially in the high-end male market, helping the brand stand out from the competition. At the same time, Tom (Men's) Fragrance Essence meets environmental protection and safety standards, uses natural or high-quality synthetic fragrances, meets the needs of modern consumers for health and environmental protection, and is an ideal choice for the production of various daily chemical products and luxury goods.
