## Product Description

### Product Description:

Grape flavor is an attractive fruity flavor, just like freshly picked grapes, plump and juicy, sweet and fragrant. It exudes a pleasant natural fruity aroma and is a classic fragrance commonly used in food, fragrances and daily chemical products.

Our Food Fragrances product is a great addition to any kitchen. With its oil and water solubility, easy storage, and delicious flavor and aroma, it is the perfect choice for anyone looking to enhance their food with a natural and healthy taste. Try it today and experience the difference for yourself!

### Features:

#### Fragrance description:

Top note: Fresh fruity

A hint of sweet and sour grape fruit aroma comes to your nose, refreshing and natural, with a slight green flavor, as if you are tasting the sweet and sour juicy taste of fresh grapes for the first time.

Mid-note: Rich and sweet

The aroma of grapes gradually deepens, and the sweet flesh fragrance fills it, accompanied by a hint of honey-like delicate sweetness, which is intoxicating.

Base note: Soft and warm

The light fructose and the natural scent of grape skin give the aroma a warm ending, which is sweet but not greasy, and the fragrance lasts for a long time.

#### Product features:

Sweet and tempting: Reproduces the natural aroma of fresh grapes, suitable for people who like fruity aromas.

Rich layers: From fresh to sweet, the aroma is delicate and diverse.

High applicability: Suitable for a variety of product types and scenarios, meeting a wide range of needs.

**Technical Parameters:**

Testing Items	Standard Requirements	Testing Result	SingleConclusion
Appearance	Pale yellowish clear liquid.	Qualified	Conformed
Scent	with the aroma of sweet scented Grape	Qualifiod	Conformed
Density	0.848-0.880	0.856	Conformed

### Applications:

Grape flavor is widely used in the food industry, giving products a natural fruity aroma and sweet flavor.

#### **Beverages:**

Used in grape-flavored soda, juice, functional drinks and cocktails to enhance the fresh fruit aroma.

#### **Candy and snacks:**

Added to soft candies, hard candies, and chewing gum to provide a real grape aroma.

Used in puffed foods or pastries to increase fruity flavor.

#### **Ice cream and desserts:**

Used in ice cream, pudding, mousse and other desserts to give a rich grape sweetness.

#### **Baked goods:**

Incorporate grape flavor into baked products such as cakes and biscuits to enhance the aroma and taste.

## Support and Services:

Welcome to our Product Technical Support and Services for Food Fragrances. Our team of experts is committed to providing you with the highest level of technical support and service to ensure that your experience with our products is a success. We offer the following services:

1. **Product Formulation Support:** Our team can provide guidance on the optimal use of our food fragrances in your applications, including formulation recommendations and compatibility testing.
2. **Regulatory Assistance:** We can assist you in navigating the complex regulatory landscape to ensure that your products comply with all relevant regulations and requirements.
3. **Technical Troubleshooting:** If you encounter any technical issues with our products, our team is available to assist you in identifying and resolving the issue as quickly as possible.
4. **Training and Education:** We offer training and education programs to help you better understand our products and how to use them effectively in your applications.
5. **Custom Solutions:** We can work with you to create custom solutions to meet your specific needs, including custom fragrances and formulations.

## Packing and Shipping:

### **Product packaging of food flavors:**

Food flavors are placed in plastic buckets or iron buckets, and the boxes are wrapped with bubble film to ensure that the bottles will not break during transportation.

### **Shipping information:**

We will track the tracking number provided after shipment. If you have any questions about transportation, please contact our customer service team.
