Product Description

Product Description:

Our Candle Fragrances are available in various scent combinations that are perfect for all occasions. From natural candle scents like lavender, vanilla, and sandalwood to fruity and floral scents like citrus, jasmine, and rose, our fragrances are the perfect addition to your candle-making venture. These fragrances are perfect for creating fragrant candles for home use, spa, and other similar environments where soothing scents are needed.

Our Candle Fragrances are the perfect solution for creating fragrant candles for your daily use, industrial needs, and candle-making ventures. With high temperature resistance, high purity, long-lasting fragrance retention, and environmentally friendly traits, our fragrances are the perfect addition to any candle-making venture.

Features:

Bluebell fragrance is a fragrance dominated by fresh floral and fruity scents, usually showing the following characteristics:

1. Top notes: freshness and greenness

The top notes of bluebell fragrance are usually dominated by refreshing green scents, mixed with some sweet fruits. Common ingredients include:

Dew drop feeling: simulates the fresh scent of dew on plants in the morning.

Citrus or fruity scent: such as pear or lemon, bringing a light fruity scent.

2. Middle note: soft floral scent

The middle note is the core of bluebell fragrance, showing a gentle and elegant floral scent.

Bluebell floral scent: the protagonist scent, fresh and slightly watery floral scent.

Lily or jasmine: add layering to make the fragrance more elegant.

3. Base note: wood and musk

The base note is generally dominated by warm and soft woody scents and musk, providing a long-lasting and low-key tone for the fragrance.

White musk: adds soft and pure scent.

Light woody or amber: slight woody feel, enhancing the depth of the fragrance.

4. Overall atmosphere: fresh, natural, elegant

The overall characteristics of the blue bell fragrance are fresh and bright, as if you are in a spring garden, giving people a light and comfortable feeling. It is suitable for people who like natural and pure fragrance, and is also suitable for spring and summer seasons or daily use.

Technical Parameters:

Testing Items	Standard Requirements	Testing Result	Conclusi on
Character	yellow liquid, with the aroma of sweet scented Blue Ocean	Qualified	Confirmed
Density	0.9380-0.9500	0.9410	Confirmed

Applications:

Bluebell fragrance has a wide range of applications due to its fresh, natural and elegant characteristics, suitable for a variety of scenarios and product types. The following are common application areas of bluebell fragrance:

1. Perfume and body care products

Perfume: used as the main tone for light perfume and fragrance spray, suitable for fresh and elegant daily fragrance.

Shower gel: adds a sense of freshness during bathing and gives a gentle and soothing experience.

Body lotion/hand cream: brings a light and lasting fragrance to the skin while enhancing the moisturizing effect.

2. Home fragrance

Aromatherapy candles: used to create a fresh atmosphere at home, especially suitable for spring and summer.

Aromatherapy diffuser: emits natural and fresh fragrance at home or in the office.

Air freshener: improves the quality of home air and brings an elegant atmosphere.

3. Daily chemical products

Shampoo and conditioner: inject fresh floral scent into hair.

Laundry detergent and softener: leave a hint of elegant floral and fruity fragrance on clothes, suitable for daily use.

Cleaning products: such as hand soap and household cleaners, use fresh scents to enhance the user experience.
