## Product Description

### Product Description:

Plant-based fragrance is a high-quality natural fragrance product designed specifically for the laundry detergent field. It uses plant extraction technology to integrate the fragrance of nature into the laundry process. It is inspired by the aroma of natural plants and, through precise blending, perfectly combines fresh and elegant fragrance with excellent fragrance retention technology to provide consumers with a cleaner and more pleasant laundry experience.

### Features:

#### Natural plant fragrance

With plant fragrance as the core, it combines a variety of classic plant fragrances such as lemongrass, jasmine, lavender, tea tree and rose, exuding a fresh and natural fragrance, giving the laundry detergent a unique aroma.

#### Excellent fragrance retention

Adopting advanced microcapsule encapsulation technology, the fragrance is slowly released in the clothing fibers, ensuring that the clothes emit a delicate fragrance for a long time after washing.

#### Gentle and environmentally friendly

Using sustainable plant extracts, it does not contain harmful chemicals, is skin-friendly, does not irritate the skin, and is suitable for sensitive people.

#### Perfect combination with washing ingredients

Scientifically formulated, it is highly compatible with the decontamination ingredients of laundry detergent, and the fragrance is stable and not easy to volatilize, ensuring that the charming fragrance is emitted for a long time during the cleaning process.

**Technical Parameters:**

Testing Items	Standard Requirements	Testing Result	Conclusion
Character	yellow liquid, with the aroma of sPlant Extract Fragrance	Qualified	Confirmed
Density	0.9380-0.9500	0.9410	Confirmed
Refractive index (20°C)	1.4800-1.5000	1.4856	Confirmed
Solubility	The ml sample is soluble in 3ml volume fraction of 90% ethanol, a clear and transparent liquid	Qualified	Confirmed

### Applications:

Application scope of plant-based fragrances in the field of laundry detergents

Plant-based fragrances are widely used in various laundry detergent formulas and product development due to their natural, environmentally friendly and elegant fragrance characteristics. The following are typical application scopes of plant-based fragrances in the field of laundry detergents:

#### 1. Daily laundry detergents

Plant-based fragrances give daily laundry detergent products a fresh and natural fragrance to meet the daily cleaning needs of the family.

Applicable objects: daily fabrics such as ordinary clothing, bedding, curtains, etc.

Fragrance suggestions: Vibrant plant-based fragrances such as fresh lemongrass, elegant jasmine, green tea mint, etc., suitable for home environments.

#### 2. High-end concentrated laundry detergents

High-concentration laundry detergents require high-quality fragrances. The long-lasting fragrance of plant-based fragrances perfectly matches the concentrated formula, enhancing the high-end feel of the product.

Applicable objects: consumers with high requirements for washing effects and fragrance.

Fragrance suggestions: Long-lasting fragrances such as luxurious roses, warm sandalwood, and herbal lavender highlight the high-end positioning of the product.

#### 3. Baby laundry detergent

Plant-derived fragrances are gentle and non-irritating, making them an ideal choice for baby laundry detergents, bringing a natural and fresh fragrance to baby clothes.

Applicable objects: baby clothes, diapers, sheets and other close-fitting fabrics.

Fragrance recommendations: Gentle fragrances such as pure chamomile, soft centella asiatica, and natural cotton meet the sensitive needs of infants and young children.

### Support and Services:

#### Authenticity Guarantee

All products have undergone strict quality inspection and are 100% authentic and directly supplied, making you feel more at ease when using them.

#### Worry-free after-sales service

We provide 7-day unconditional return and exchange service (unopened). If there is any inconvenience caused by product quality problems, we will handle it for you as soon as possible.

#### Fast delivery

Equipped with a multi-warehouse delivery system, the order is quickly packed after it is generated to ensure that the goods are safely delivered to you.
