Product Description

Product Description:

The Stain Remover fragrance is a high-performance fragrance specially designed for the washing field. It is famous for its dual functions of strong stain removal and fresh fragrance. It combines modern fragrance compounding technology with efficient cleaning concepts, taking into account cleaning effects and user experience, while improving the core performance of washing products, bringing consumers a more comfortable and pleasant use experience. This fragrance can deeply remove stubborn stains while giving clothes a lasting and fresh fragrance, truly realizing the perfect combination of cleanliness and fragrance.

Using unique fragrance microcapsule encapsulation technology, the Stain Remover fragrance can continuously release fragrance during washing and wearing, making clothes emit a pleasant fragrance for a long time. Whether it is fresh lemon, mint, or elegant lavender, it can bring a natural and soothing olfactory enjoyment. At the same time, its efficient decomposition of odor molecules can not only effectively remove stubborn odors on clothes, such as sweat, oil smoke, etc., but also neutralize the source of odor for a long time, so that the fresh feeling always accompanies the clothes.

Features:

Deep stain removal fragrance

Specially suitable for detergents with strong stain removal formulas, the fragrance and stain removal factors work together to remove stubborn stains while keeping the clothes fresh.

Suitable for removing heavy oil stains, sweat stains, food stains and other stubborn stains, the clothes will be refreshed after washing.

Powerful deodorization function

Add patented deodorization factors to effectively neutralize odor molecules such as sweat and greasy smells, and the clothes will emit a pure and pleasant fragrance.

Long-lasting fresh fragrance

Using advanced microcapsule fragrance technology, the fragrance can be released and retained in the fabric during washing and drying, and the clothes will emit a light and elegant fragrance with the movement when worn.

Multi-layer fragrance design

Design a variety of fragrances according to product requirements, which can be customized such as lemon freshness, mint cleanness, lavender flower fragrance, etc., to meet the preferences of different markets and users.

Green and environmentally friendly

The formula uses low-irritation ingredients, meets environmental protection standards, is safe and reliable, and does not damage fabrics and skin.

Technical Parameters:

Testing Items	Standard Requirements	Testing Result	Conclusion
Character	yellow liquid, with the aroma of Stain Remover Fragrance	Qualified	Confirmed
Density	0.9380-0.9500	0.9410	Confirmed
