## Product Description

### Product Description:

Attachment Fragrance is a fragrance that combines soft florals with warm woody notes, designed to create a warm, intimate and attached atmosphere. Its fragrance is rich in layers, from the fresh floral scent at first to the woody scent at the end, all of which show a gentle and deep emotion, making people feel a comfort and warmth like a hug. This fragrance is suitable for all kinds of life scenes and can bring users a sense of intimacy and tranquility.

Floral notes are the core of the Attachment fragrance, with an elegant and soft floral scent that instantly makes people feel gentle and friendly. Common floral ingredients include:

Jasmine: adds a touch of sweet and layered floral fragrance to the fragrance, making the fragrance appear gentle and moving.

White Rose: has a light and elegant fragrance, giving people a pure and romantic feeling.

Lily of the Valley: adds a touch of fresh and fragrant elements to the fragrance, bringing a sense of tranquility and clarity.

### Features:

Floral notes: The top notes of the fragrance have fresh floral scents, such as jasmine, white rose and lily of the valley, giving the fragrance a gentle and delicate fragrance, as if soft flowers gently brush against the skin, bringing tranquility and comfort.

Fruity notes: Incorporating slight fruity scents, such as sweet fruit scents such as peach, apricot or pear, brings a soft sweetness, increases the warmth and intimacy of the fragrance, and evokes attachment to sweet times.

Woody notes: The base notes of attachment fragrances often contain warm woody scents, such as sandalwood, vetiver, cedar, etc., making the fragrance deep and steady. Woody scents bring a sense of security and dependence, and increase the layering and persistence of the fragrance.

Musk and amber: Musk and amber are added to the base notes to enhance the softness and persistence of the fragrance, while giving the fragrance a warm and sweet feeling, as if surrounded by a gentle embrace.
