Product Description

Product Description:

Fragrance characteristics:

Grapefruit fragrance presents a strong citrus aroma with the unique sourness and slight bitterness of grapefruit. It is a fresh and refreshing fruity fragrance that has both the natural acidity of grapefruit and a blend of sweetness and bitterness. The overall fragrance is fresh and refreshing, which can awaken the senses and bring a relaxed and pleasant atmosphere. The delicate aroma of the peel and the freshness of the pulp are integrated into the fragrance, making the fragrance more real and rich.

Fragrance description:

Top note: The fresh citrus aroma is the most prominent, with a strong sour feeling, similar to the aroma of the moment when the grapefruit is cut. The top note has an instant refreshing effect, refreshing and full of vitality.

Middle note: As the fragrance gradually evaporates, the sweetness of the fragrance begins to appear, the sourness gradually weakens, and the aroma of the pulp becomes more obvious, bringing a slightly sweet and refreshing feeling.

Base note: The tail note of the fragrance has a subtle bitterness, forming a perfect balance with the fresh top and middle notes. This base note enhances the layering of the fragrance, making it more intriguing.

Features:

Main ingredients:

Natural ingredients: Natural essential oils (such as limonene, citrus aldehyde, aromatic alcohols) extracted from fresh grapefruit peel and pulp, with pure and natural fruity characteristics.

Synthetic ingredients: Synthetic fragrances may contain citrus flavor ingredients, such as linalyl acetate, benzyl acetate, etc., which imitate the fresh fruity aroma and bitter taste of grapefruit.

Main features:

Fresh and refreshing: Grapefruit flavor has a natural refreshing effect and is suitable for daily refreshing and vitality-enhancing products such as beverages, personal care products, air fresheners, etc.

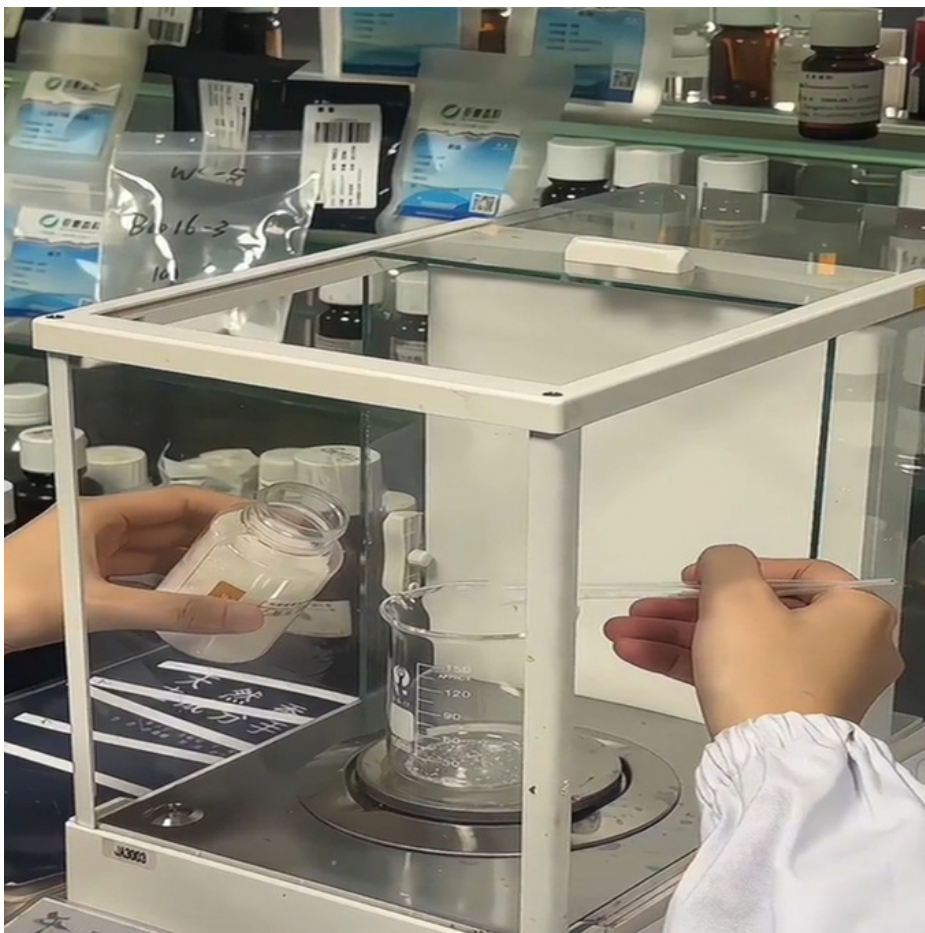

Combination of natural and synthetic: Whether it is natural extraction or synthetic fragrance, grapefruit flavor can accurately present the classic aroma of grapefruit to meet the needs of different products and markets.

Strong persistence: Grapefruit flavor is highly volatile, but at the right concentration, the aroma can be maintained for a long time, especially in daily chemical products and food applications.

Technical Parameters:

Testing Items	Standard Requirements	Testing Result	Conclusion
Character	yellow liquid, with the aroma of Grapefruit	Qualified	Confirmed
Density	0.9380-0.9500	0.9410	Confirmed
Refractive index (20°C)	1.4800-1.5000	1.4856	Confirmed
Solubility	The ml sample is soluble in 3ml volume fraction of 90% ethanol, a clear and transparent liquid	Qualified	Confirmed

Applications:

Food and Beverages:

Grapefruit flavor is widely used in food and beverages and has a very high market demand. Common applications include:

Beverages: such as grapefruit juice, soda, energy drinks, iced tea, cocktails, low-sugar drinks, etc. Grapefruit flavor can bring a refreshing taste to beverages and enhance the natural flavor of juice.

Baked goods: such as biscuits, cakes, muffins, puffs, desserts, etc. Grapefruit flavor adds natural fruity aroma to baked products and enhances the layered taste.

Candy: such as soft candy, hard candy, chewing gum, etc., grapefruit flavor can provide candy with a fresh and natural citrus flavor.

Dairy products: such as yogurt, ice cream, cheese, milk tea, etc., grapefruit flavor makes the taste of dairy products more refreshing.

Personal care and cosmetics:

Perfume: The application of grapefruit flavor in perfume can bring a fresh, lively and modern aroma. It is often used as one of the top notes or main notes of perfume, mixed with floral fragrance, woody fragrance, etc., to create a variety of aroma experiences.

Skin care products: such as face cream, facial cleanser, toner, hand cream, etc. Grapefruit essence can bring a refreshing feeling to users and boost their spirits.

Bath and shampoo products: such as shower gel, shampoo, conditioner, etc. The fresh aroma of grapefruit essence adds a sense of pleasure to the experience of bathing and shampooing, and soothes the body and mind.

Oral care: such as toothpaste, mouthwash, etc., grapefruit essence can bring a fresh taste and help remove bad breath.

Home freshness:

Air freshener: Grapefruit essence is often used in air fresheners, scented candles, room sprays and other products. It can refresh the air, remove odors, and add a fresh and pleasant atmosphere to the indoor environment.

Cleaning products: Grapefruit essence can also be added to detergents to bring natural fruity fragrance and enhance the comfort of the cleaning process.

Support and Services:

The Laundry Detergent Fragrances product is designed to provide a fresh and long-lasting scent to your clothes after every wash. Our fragrances are carefully crafted to be compatible with a wide range of laundry detergents and fabric softeners, ensuring a consistent and enjoyable scent experience with every use.

In addition to our high-quality fragrances, we also offer technical support and services for our Laundry Detergent Fragrances product. Our team of experts can assist you with any questions or concerns you may have regarding the use of our fragrances, including compatibility with your specific laundry detergent and fabric softener. We also offer guidance on optimal usage levels to achieve your desired scent intensity.

Our technical support and services are available through various channels, including email, phone, and online chat. We strive to provide prompt and helpful assistance to ensure your satisfaction with our product.
