Product Description

Product Description:

Strawberry essence presents a rich and sweet strawberry fruit aroma, with a typical fruity sweetness and a fresh, slightly sour taste. The aroma combines the aroma of strawberry flesh and the slight fragrance of the peel. The aroma is fresh and lively, which can stimulate a pleasant and sweet sensory experience. Strawberry essence usually presents a bright aroma characteristic, as if it is a freshly picked strawberry, full of summer sweetness and freshness.

Aroma description:

Top note: The top note of strawberry essence has a bright fruity aroma, sweet and fresh, as if tasting the natural fruity flavor of freshly picked strawberries. The aroma at this time is very fresh and light, with a hint of sweet and sour refreshing taste.

Middle note: As the aroma evaporates, the strawberry aroma gradually deepens, becomes sweeter and richer, and the aroma of strawberry flesh appears, with a slight sourness in the sweetness, which enhances the layering of the aroma.

Base notes: The aroma in the base notes is more delicate, with a slight milky or creamy scent, which makes the aroma of the strawberry essence softer and rounder, suitable for mixing with other fragrances to create a richer aroma experience.

Features:

Natural ingredients: Strawberry flavor is often formulated with natural ingredients such as natural strawberry extract and strawberry fruit essential oil, mainly including fruit acid, aldehyde substances (such as acetaldehyde, phenylacetaldehyde, etc.) and ester compounds.

Synthetic ingredients: Synthetic strawberry flavor may use certain synthetic esters (such as benzyl acetate, ethyl acetate, etc.) or fragrance chemicals, which can imitate the sweet fruity aroma of strawberries and provide an economical and practical alternative.

Product features:

Natural fruity aroma: Strawberry flavor can bring a natural and rich strawberry flavor, as if people are in a strawberry garden and feel the sweet smell of freshly picked strawberries.

Multi-purpose: Strawberry flavor is not only suitable for food and beverages, but also widely used in personal care, cosmetics and home freshness products. It has strong adaptability and wide market demand.

Rich layers: Strawberry flavor has a very rich sense of layering, from fresh fruity aroma to rich sweet aroma, to delicate milky aftertaste, which makes it provide a pleasant experience when used in various products.

Technical Parameters:

Testing Items	Standard Requirements	Testing Result	Conclusion
Character	yellow liquid, with the aroma of Strawberry Fragrance	Qualified	Confirmed
Density	0.9380-0.9500	0.9410	Confirmed
Refractive index (20°C)	1.4800-1.5000	1.4856	Confirmed
Solubility	The ml sample is soluble in 3ml volume fraction of 90% ethanol, a clear and transparent liquid	Qualified	Confirmed

Applications:

Food and Beverages:

Strawberry flavor is widely used in various foods and beverages, providing products with a sweet strawberry flavor.

Beverages: such as strawberry juice, milkshakes, fruit drinks, soda water, iced tea, cocktails, etc. Strawberry flavor can bring a rich strawberry taste and refreshing aroma to these drinks.

Candy: Strawberry soft candy, hard candy, candy gum, chewing gum, etc. Strawberry flavor gives candy a sweet and attractive fruity aroma.

Bakery products: such as strawberry-flavored biscuits, cakes, muffins, puffs, etc. Strawberry flavor can make baked products fragrant and taste richer.

Dairy products: such as strawberry-flavored yogurt, ice cream, milk tea, etc. Strawberry flavor enhances the fruity aroma of dairy products, making their taste more delicate and attractive.

Personal Care and Cosmetics:

Strawberry flavor is also widely used in personal care products, especially in products with a sweet scent, such as:

Perfume: Strawberry flavor is often used as a component of sweet fruity aroma, added to the top or middle notes of perfume, bringing a sweet and refreshing fragrance experience.

Skin care products: Strawberry essence can also be used in skin care products such as facial cleansers, face creams, toners, hand creams, etc., giving users a pleasant aroma experience.

Bath and shampoo products: Such as shower gel, shampoo, conditioner, etc., strawberry essence can bring a pleasant bathing experience, with a fresh and sweet aroma.

Oral care: Such as strawberry-flavored toothpaste, mouthwash, etc., strawberry essence can increase the fun and comfort of oral care.

Support and Services:

Our Fragrances Oil product comes with comprehensive technical support and services to ensure you get the most out of your purchase. Our team of experts is available to answer any questions you may have about the product and its applications. We also offer maintenance services to keep your Fragrances Oil in top condition and to address any issues that may arise. Additionally, we provide training and educational resources to help you optimize your use of the product and to stay up-to-date on the latest industry developments. Contact us today to learn more about our technical support and services for Fragrances Oil.

Packing and Shipping:

Product Packaging:

Our fragrances oil product comes in a sleek and elegant glass bottle that is securely sealed with a tamper-evident dropper cap. The bottle is then placed in a sturdy cardboard box along with a product information leaflet and wrapped with bubble wrap to ensure safe transportation.

Shipping:

We offer standard shipping through trusted courier services. Delivery times may vary depending on your location. We also offer expedited shipping options for an additional fee.
