## Product Description

### Product Description:

Ocean Fragrance is a fragrance product inspired by the ocean, designed to reproduce the freshness, vastness and tranquility of the sea. Its fragrance is usually based on refreshing water vapor, salt and sea breeze, blending light plant fragrance and woody notes, bringing a pure and fresh feeling, as if you are on the coastline and feel the vastness and tranquility of the sea.

Main aroma characteristics:

**Fresh water vapor:** The core feature of ocean fragrance is the fresh and moist water vapor. It imitates the smell of ocean air, usually with a salty and cool breath, as if taking a deep breath in the sea breeze, with the unique freshness of the sea.

**Sea breeze and salt:** Subtle salt and sea breeze are often incorporated into ocean fragrances. This ingredient makes the fragrance more fresh and slightly salty, evoking natural associations with the sea.

**Green plant aroma:** In order to add a sense of layering, ocean fragrances usually add elegant herbal aromas, such as the smell of seaweed, green leaves or grass, making the fragrance more natural and refreshing herbal.

**Woody and musky base notes:** In order to balance the fresh top notes, marine fragrances may add some woody notes (such as cedar, white pine, sandalwood) and musk ingredients to make the fragrance have a warm and lasting feeling, like the morning or evening at the seaside.

### Features:

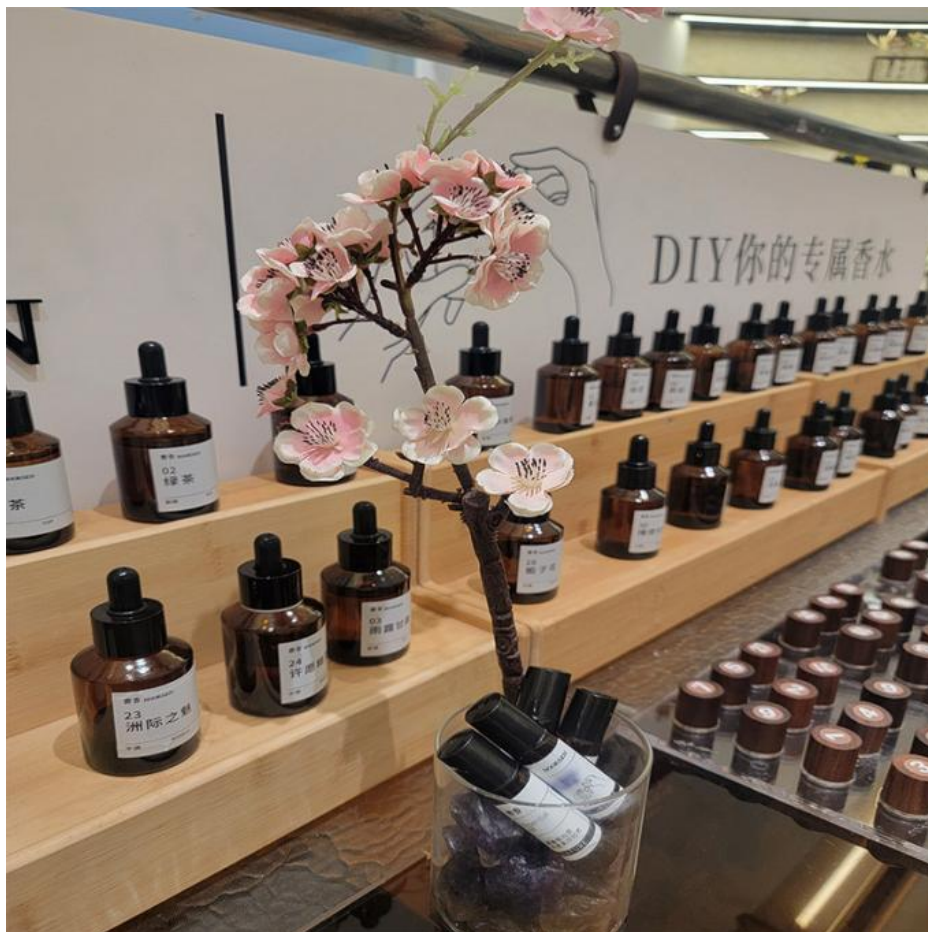

Main ingredients:

**Water vapor and salt:** imitate the salt and water vapor components of ocean air, giving the fragrance a light and refreshing ocean scent.

**Green plant aroma:** natural plant aromas such as seaweed, grass, and mint enhance the herbal and natural feel of the fragrance.

**Wood notes:** woody aromas such as cedar, white pine, and sandalwood increase the depth and layering of the fragrance and bring a sense of warmth.

**Musk and amber:** Musk and amber are often added to make the fragrance more lasting and have a deep background, creating the stability and persistence of the ocean scent.

## Technical Parameters:

Testing Items	Standard Requirements	Testing Result	Conclusion
Character	yellow liquid, with the aroma of Ocean Essence	Qualified	Confirmed
Density	0.9380-0.9500	0.9410	Confirmed
Refractive index (20°C)	1.4800-1.5000	1.4856	Confirmed
Solubility	The ml sample is soluble in 3ml volume fraction of 90% ethanol, a clear and transparent liquid	Qualified	Confirmed

## Applications:

Fragrance products:

Perfumes and deodorants: Marine fragrances are widely used in perfume products, especially for people who like fresh and light fragrances. Its refreshing water vapor and sea breeze make people feel rejuvenated and suitable for daily use, especially in summer.

Air fresheners and scented candles: Marine fragrances are also commonly used in air fresheners and scented candles, which can effectively purify the air and bring a fresh feeling like a sea breeze, helping to create a refreshing and natural indoor environment.

Home and space fragrances:

Indoor fragrances: The fresh smell of marine fragrances makes it a popular choice in indoor fragrance products. It can help eliminate odors in the space and bring a natural ocean smell to the home environment.

Car fragrances: The fresh aroma of marine fragrances is also suitable for car fragrances, which can bring a pleasant and refreshing driving experience to car owners.

Personal care and beauty:

Body wash, shampoo: Marine fragrances are often used in personal care products such as shower gel and shampoo to bring a refreshing and natural fragrance to users. It gives people a feeling of bathing at the seaside in the morning, making the body and mind feel refreshed.

Skin care products and facial cleansers: This fragrance can also be used in skin care products to add freshness and enhance the product experience. Its refreshing aroma makes people feel comfortable and relaxed, suitable for morning use.

Aromatherapy and soothing products:

Relaxation and calmness: In aromatherapy, marine fragrances are often used to relax and relieve stress with their fresh breath. It can help people reduce anxiety, relax their mood, and create an atmosphere of relaxation for the body and mind.

Cleaning products:

Cleaning agents and laundry detergents: Due to its fresh and clean aroma, marine fragrances are also often used as fragrances for cleaning products, such as dishwashing detergents, laundry detergents, disinfectant wipes, etc. It can add a refreshing and pleasant

marine aroma to cleaning products.

### Support and Services:

Our Fragrance Oils are carefully crafted and formulated for use in a variety of applications, including candles, soaps, and lotions. Our team of experts is available to provide technical support and services to ensure that you get the most out of our products.

We offer assistance in the following areas:
