

Cinnamon Leaf Essential Oil Exquisite Scented Candle Fragrances

Our Product Introduction

for more products please visit us on fragrances-oil.com

Basic Information

- Place of Origin: China,Guangdong
- Brand Name: Plant Fragrance
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL40028
- Minimum Order Quantity: To be negotiated
- Price: 1 - 49 kilograms \$20.00 To be negotiated
- Packaging Details: Carton drum packing :5kgs/drum,4 drum/carton,20kgs/carton(41*28*33.5cm);Iron drum packing: 25 kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 5-8 working days for Trial order; 8-15 working days for OEM order
- Payment Terms: T/T,Western Union,Ali Pay,Paypal;
- Supply Ability: 2000 Kilogram/Kilograms per Day

Product Specification

- Usage: Daily Flavor, Industrial Flavor, Fragrance Oil For Candle Making
- Storage Condition: Cool Dry Place (Store In Cool, Dry Place In Tightly Sealed Containers)
- After-sales Service: Yes
- Solubility: Oil/ Water Soluble
- Sample: Free Samples
- Form: Yellow Liquid Oil
- Other Names: Cinnamon Leaf Essence/Cinnamon Leaf Fragrance Essence
- Application: Candle Making
- Highlight: **Exquisite Scented Candle Fragrances, Cinnamon Leaf Essential Oil Candle Fragrances**

Product Description

Product Description:

Cinnamon leaf essence is an essential oil or spice extracted from the leaves of the cinnamon tree (*Cinnamomum verum* or *Cinnamomum cassia*), with a warm, spicy and slightly sweet aroma. Compared with essences extracted from other parts of the cinnamon tree (such as bark), the aroma of cinnamon leaf essence is relatively fresh and herbal, and not as strong and sweet as bark essence.

Main ingredients:

The main chemical components of cinnamon leaf essence include:

Cinnamaldehyde: It has a spicy and warm aroma and is the main component of cinnamon essence.

Eugenol: A chemical with a clove-like aroma that adds depth and complexity to the fragrance.

Camphor: Provides a hint of cooling, contrasting with other warm ingredients.

Citral: It has a citrus aroma and usually gives the fragrance a certain freshness.

Vanillin: It has a slightly sweet aroma and can sometimes present a warm sweet aroma in the fragrance.

Features:

The aroma of cinnamon leaf essence is spicy yet warm, with a hint of herb and wood. Its aroma is often described as:

Warm and spicy: Similar to cinnamon bark, but fresher, softer and less sweet.

Woody and herbaceous: A slightly fresh herbaceous scent, combined with the natural scent of the tree, gives a natural, fresh feeling.

Spicy and sweet: There is a subtle sweetness in its aroma, but the more prominent spiciness is its spicy feeling.

Extraction process:

Cinnamon leaf essence is usually extracted from the leaves of the cinnamon tree by distillation. The leaves are steam-treated, and the essential oils are collected, refined and concentrated. Compared with cinnamon bark essence, the essential oil extracted from the leaves contains less cinnamaldehyde and more ingredients such as eugenol and eucalyptol, so its aroma is fresher and the taste is relatively less strong.

Technical Parameters:

| Testing Items | Standard Requirements | Testing Result | Conclusion |
|-------------------------|--|----------------|------------|
| Character | yellow liquid, with the aroma of Cinnamon Leaf | Qualified | Confirmed |
| Density | 0.9380-0.9500 | 0.9410 | Confirmed |
| Refractive index (20°C) | 1.4800-1.5000 | 1.4856 | Confirmed |
| Solubility | The ml sample is soluble in 3ml volume fraction of 90% ethanol, a clear and transparent liquid | Qualified | Confirmed |

Applications:

1. Perfumes and fragrance products:

Fragrance blending: Cinnamon leaf essence is often used as a middle or base note in perfumes, especially in warm, oriental-style fragrances. It is paired with ingredients such as vanilla, sandalwood, amber, and orange blossom to add warmth and create a deep, peaceful atmosphere.

Air fresheners and scented candles: Because the aroma of cinnamon leaf essence can spread quickly in a space, it is often used to make scented candles and air fresheners to help remove odors and create a warm environment.

2. Home care and cleaning products:

Natural cleaners: Cinnamon leaf essence has mild antibacterial and antiviral properties and can be used as a natural ingredient in household cleaners to help purify the air and inhibit bacterial growth.

Deodorants: Due to its fresh and spicy aroma, cinnamon leaf essence is often used to make air purification products with natural fragrance.

Support and Services:

Our Candle Fragrances product technical support and services include:

- Assistance with selecting the right fragrance for your candles
- Guidance on fragrance usage rates and compatibility with different wax types
- Troubleshooting common issues with fragrance performance in candles
- Custom fragrance development services to create unique scents for your brand
- Access to our fragrance library with over 100 different scents to choose from

Packing and Shipping:

Product Packaging:

Our Candle Fragrances come in a beautiful glass jar with a sleek black lid. The jar is wrapped in a protective bubble wrap and placed in a sturdy cardboard box with our logo on it.

Shipping:

International shipping rates vary depending on the destination. All orders are processed within 1-2 business days and shipped via USPS Priority Mail. Delivery time within the United States is typically 2-3 business days. International delivery time varies depending on the destination.
