Product Description

Product Description:

Pink Chiffon Fragrance is a fragrance product with a sweet, soft and fresh floral scent, which is usually used in perfumes, cosmetics, toiletries and home fragrance products. Its name comes from "pink chiffon", which gives people a light, elegant and romantic association. The fragrance of pink chiffon fragrance is as soft and delicate as chiffon fabric, with a pleasant sensory experience, conveying an elegant, sweet and fresh atmosphere.

The following is a detailed product description of pink chiffon fragrance:

1. Fragrance characteristics

The fragrance of pink chiffon fragrance is soft and fresh, usually a mixture of various floral and fruity scents, giving people a warm and light feeling. The levels of fragrance are usually divided into top notes, middle notes and base notes:

Top notes: soft fruity fragrance, often containing sweet fruit aromas such as citrus fruits, strawberries or grapes, fresh and with a natural sweet and sour feeling. Gives a fresh feeling in the morning and full of energy.

Middle note: Floral scent is the core of Pink Chiffon fragrance, usually including rose, jasmine, peony and other flower scents. These floral scents are intertwined, sweet and soft, with a romantic atmosphere, as if you are in a blooming garden.

Base note: Soft woody or musk, which brings a sense of stability to the whole fragrance, increasing its depth and persistence. The base note usually has a little powdery texture, making the fragrance warmer and more comfortable.

Features:

Aroma characteristics

Sweet and fresh: The aroma of pink chiffon essence is sweet but not greasy, giving people a pleasant and fresh feeling. The fruity aroma of the top notes and the floral aroma of the middle notes are intertwined, making the overall aroma both sweet and elegant.

Gentle and soft: The floral part of the aroma is particularly gentle, often reminiscent of the softness and delicacy of petals. The overall aroma is as light and elegant as chiffon fabric, giving people a warm and peaceful feeling.

Long-lasting comfort: Pink chiffon fragrance usually can emit fragrance for a long time, and the woody or musk component of the backnote can help the fragrance to be released for a long time and avoid the fragrance being too volatile.

Product features

High-concentration fragrance: Pink chiffon fragrance usually has a high fragrance concentration, can show its significant fragrance effect with a small amount of use, and is suitable for use in the formulation of a variety of products.

Fresh and sweet at the same time: It can display both fresh fruity and sweet floral aromas. The balance of this aroma makes it suitable for all kinds of consumers, especially those who like soft floral and fruity aromas.

Combining natural and synthetic ingredients: Many pink chiffon fragrances use a combination of natural ingredients and synthetic ingredients, which not only ensures the naturalness of the fragrance, but also improves the stability and fragrance-lasting effect of the fragrance.

Technical Parameters: _____
