Product Description

Product Description:

Cotton fragrance is a fragrance with a mild and fresh smell, commonly used in detergents, air fresheners, personal care products and home fragrances. It usually imitates the aroma of freshly washed cotton or quilts, giving people a refreshing, soft and comfortable feeling with a light floral and woody scent.

Product Features:

Fresh and natural: simulates the aroma of natural cotton, fresh and soft, suitable for fragrance addition to various daily necessities.

Persistence: The fragrance is stable and can maintain a fresh feeling for a long time after use, especially in washing and care products.

Multi-purpose: widely used in laundry detergent, softener, scented candles, air fresheners, shower gel, conditioner and other products to increase the attractiveness of the product.

Safe and environmentally friendly: using high-quality synthetic or natural fragrances, in line with international safety standards, non-irritating, suitable for sensitive skin.

Features:

Natural and fresh: The fragrance simulates the natural fragrance of cotton, avoiding overly sweet or pungent smells, giving consumers a natural and friendly feeling.

Long-lasting fragrance: In detergents, skin care products and other products, it can provide a long-lasting fresh fragrance, allowing users to maintain comfort for a long time.

Gentle and non-irritating: It does not contain strong fragrances, is suitable for people with sensitive skin, and can meet the daily use needs of infants and adults.

Environmentally friendly and safe: Environmentally friendly fragrances are selected to meet international safety standards to ensure safety in various products and avoid negative effects on the human body or the environment.

Natural plant extracts: such as cotton seed oil, floral fragrance ingredients, etc., to ensure that the fragrance is pure and natural.

Synthetic fragrances: used to enhance the persistence and diffusion of fragrance, after careful preparation, to ensure the balance and layering of fragrance.

Fixatives and solvents: ensure the stability of the fragrance, avoid the fragrance from volatilizing too quickly, and improve the fragrance persistence of the product.

Technical Parameters: _____

Testing Items	Standard Requirements	Testing Result	Conclusion
Character	yellow liquid, with the aroma of Cotton Fragrance	Qualified	Confirmed
Density	0.9380-0.9500	0.9410	Confirmed
Refractive index (20°C)	1.4800-1.5000	1.4856	Confirmed
Solubility	The 1ml sample is soluble in 3ml volume fraction of 90% ethanol, a clear and transparent liquid	Qualified	Confirmed

Applications:

Washing products:

Laundry detergent: Adding cotton essence to laundry detergent can make clothes emit a soft and refreshing fragrance, making the clothes comfortable to wear.

Softener: Cotton essence is commonly found in softeners, which can make clothes softer and provide a lasting fragrance.

Washing powder/washing beads: Paired with washing powder or beads, it brings a clean and comfortable fragrance to enhance the user experience.

Home fragrance:

Air freshener: Applying cotton essence to air freshener can create a warm and pleasant home environment, especially suitable for bedrooms and living rooms.

Scented candles: Cotton essence is often used as the base tone of scented candles, bringing a warm and clean atmosphere to the space, suitable for placement in rest areas, bathrooms and other places.

Personal care products:

Shower gel and shampoo: Adding cotton essence to shower gel and shampoo can make the bathing experience more refreshing and comfortable, with a long-lasting fragrance and no irritation to the skin.

Skin care products: Cotton essence can also be used in skin care products such as face creams and body lotions to bring a fresh feeling to the skin without excessive fragrance stimulation.

Perfume: Suitable for fresh and elegant perfume products to create a natural and fresh atmosphere.

Baby care products: The mild nature of cotton fragrance makes it an ideal choice for baby care products (such as baby wipes, baby shampoo, etc.).

Cleaners and disinfectants: Such as floor cleaners, kitchen cleaners, etc., cotton fragrance can give cleaning products a natural fragrance and enhance the pleasure of use.

Support and Services:

Our Candle Fragrances product technical support and services include:

Assistance with selecting the appropriate fragrance for your candle making needs.

Guidance on the proper usage and application of our fragrances in candle making.

Recommendations for optimal fragrance blending ratios based on your specific desired scent profile.

Technical troubleshooting and issue resolution related to fragrance performance in candle making.

Access to our team of experienced fragrance experts for consultation and support.

Packing and Shipping:

Product Packaging:

Our Candle Fragrances are packaged in a sturdy glass jar with a metal lid to ensure the fragrance stays fresh. The jar is wrapped in bubble wrap to prevent any damage during shipping.

Shipping:

We offer free standard shipping on all orders within the United States. Orders are processed within 1-2 business days and typically arrive within 3-5 business days. Express shipping is available for an additional fee. We also offer international shipping to select countries for an additional fee.
