Whether it is used as a daily air freshener or added to aromatherapy, personal care products, and washing products, it can add a touch of elegance to life.

2. Fragrance characteristics

The aroma of jasmine essence presents a gentle and charming floral fragrance, fresh but not without depth. Its fragrance is clearly layered, with both the sweetness of jasmine itself and a hint of delicate green, fresh and natural.

Top note: The fresh green leaf fragrance has a light grassy scent, which awakens the sense of smell while laying a fresh foundation for the fragrance.

Middle note: The scent of jasmine gradually becomes prominent, gentle and layered, sweet but not greasy, as if you are in a blooming jasmine garden.
