## Product Description

### Product Description:

Sweet orange flavor is a high-quality food flavor inspired by natural sweet orange, which perfectly restores the freshness, sweetness and pulpy aroma of sweet orange, with a warm scent like sunshine. Through scientific extraction technology and advanced perfumery technology, sweet orange flavor has real fruity aroma and rich fruity taste, which is suitable for a variety of food and beverage products and can give products a unique fruity flavor.

#### Product Features

Natural and real: High fidelity restoration of the fresh fruity aroma and sweet smell of sweet orange.

Rich aroma layers: with fresh citrus top notes, rich pulpy middle notes and sweet aftertaste tail notes.

High stability: The aroma remains stable under high temperature processing and low temperature storage conditions.

Healthy and safe: It is formulated with food-grade raw materials and meets international food safety standards (such as ISO, HACCP, FDA certification).

Easy to use: small dosage, significant effect, and can adapt to different process flows and product formulas.

### Features:

#### Fragrance Description

Top note: Fresh citrus peel aroma with a slightly sour taste.

Mid-note: Rich sweet orange pulp aroma, accompanied by natural fruit sweetness.

Base note: Warm and sweet fructose flavor, lasting aftertaste.

#### Physical properties

Liquid flavor: Transparent to light yellow liquid with rich sweet orange aroma.

Powder flavor: Light yellow or orange powder with good fluidity.

#### Solubility

Liquid flavor: Easily soluble in water, alcohol, and emulsion.

Powder flavor: Easily soluble in water or dispersed in other solid ingredients.

#### Dosage recommendations

Beverages: 0.1%~0.3%

Desserts: 0.2%~0.5%

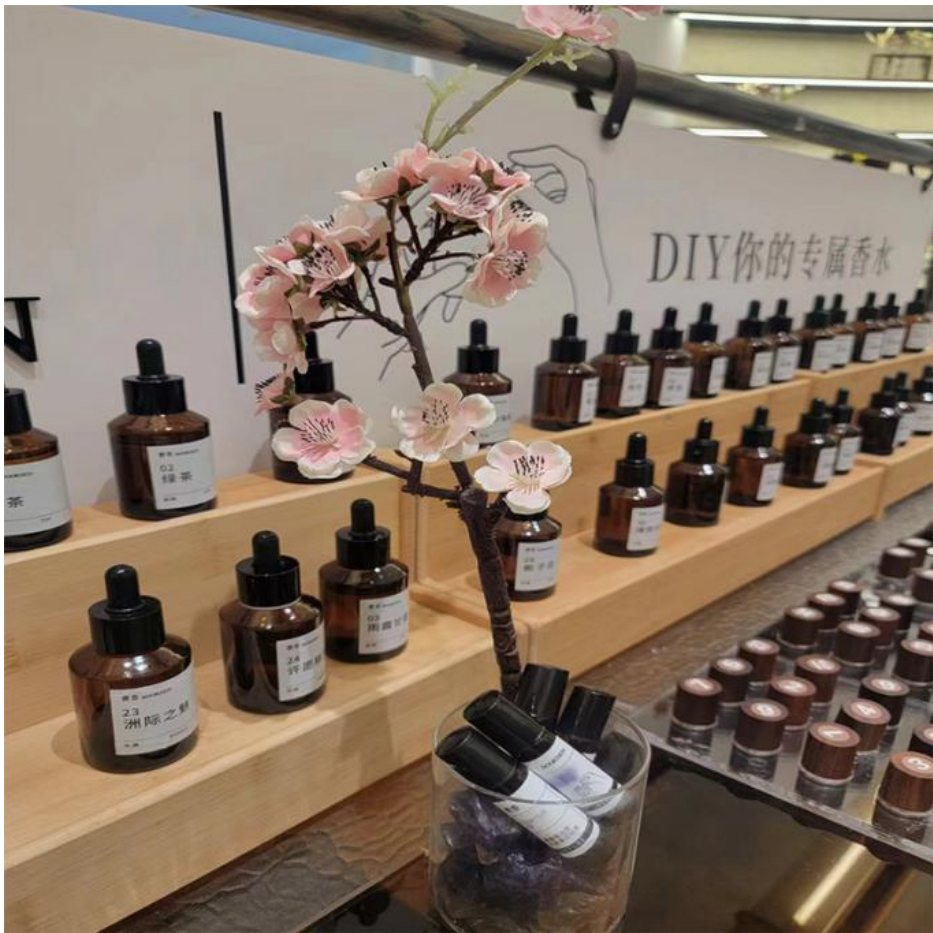

Baked goods: 0.3%~0.6%

(Actual dosage is adjusted according to product formula requirements)

#### Storage conditions

Shelf life: 12 months for liquid flavors and 24 months for powder flavors (unopened).

Storage temperature: 10°C~25°C, avoid direct sunlight and humid environment.

This Home Fragrance Scented product is also suitable for Aromatherapy Fragrances.

Using the chromatographic analyzer  
to truly 1:1 copy  
of the original essence,  
completely solve the problem  
of improper fragrance

Use a higher concentration than  
the original, longer, say goodbye to the trouble  
of short More professional raw material ratio,  
to eliminate pigment stratification,  
essence separation.

### Applications:

#### 1.Beverage Industry

Fruit Drinks: Used in orange juice, mixed juice and health drinks.

Carbonated Beverages: Provide rich fruity aroma for orange soda.

Functional Beverages: Enhance the fruity flavor of sports drinks or energy drinks.

Milk Tea and Dairy Beverages: Prepare orange-flavored milk tea or fruit-flavored dairy drinks.

#### 2.Desserts and Baked Goods

Cakes and Biscuits: Used in orange-flavored cakes and cookies to increase the sweetness.

Pastry Fillings: Increase the concentration of orange-flavored fillings, jams, etc.

Ice Cream and Jelly: Add natural sweet orange aroma and enhance the product layering.

#### 3.Candy and Snacks

Hard Candy and Soft Candy: Give candy a rich orange flavor, increase sweetness and freshness.

Chocolate: Mix orange-flavored fillings or coated chocolate to create a unique flavor.

Potato Chips and Puffed Foods: Used for the development of innovative orange-flavored snacks.

#### 4.Condiments and Catering

Salad Dressings and Fruity Sauces: Provide a refreshing fruity aroma.

Special Seasoning Powder: Used for the development of condiments in ready-to-eat foods or fast food.
