- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms per Day

#### Product Specification

## Product Description

### Tea Wellness Fragrance For Toothpaste

#### Product Descriptions

As we known ,The flavor ingredients in toothpaste are usually used to improve the taste and smell of toothpaste and enhance the user experience.

The main functions of flavors in common toothpastes belowing:

Improve taste: mask the bitter taste of other ingredients in toothpaste (such as surfactants) and improve comfort when brushing teeth.

Fresh breath: ingredients such as mint can temporarily suppress bad breath and bring a refreshing feeling.

Psychological suggestion: aroma (such as tea aroma) may strengthen the product positioning of "clean" or "natural" and increase user favorability.

Auxiliary antibacterial: Some plant essential oils (such as eucalyptus oil and eugenol) have a slight antibacterial effect.

Combinations of water-insoluble essential oils, such as spearmint, peppermint, eucalyptus and menthol are often used as flavouring agents in toothpastes and mouthwashes. The flavouring agents are solubilised and dispersed through the paste or liquid via the surfactant.
