Product Description

Pure Apple Fragrance Wholesale 25kgs/barrel For Laundry Products

LDZ-PL60014

Product Descriptions:

There are many kinds of fruits, and there are many kinds of fruits all over the world. The aroma and fragrance of fruits are pleasing to people. In daily life, fruits are eaten directly by people or added to various foods after processing. It can be said that people's lives are inseparable from fruits. Because people have a special liking for the fragrance of fruits, perfumers have conducted in-depth research on the aroma and fragrance of fruits, discovered and extracted and synthesized many fruit fragrance raw materials, and thus formulated various fruit flavors that people like. The most common fruit-flavored flavors are: apple, banana, grape, lemon, pineapple, strawberry, sweet, round grapefruit, etc. Fruit-flavored flavors are widely used in foods, such as beverages, ice cream, cakes, biscuits, candies, etc., and are also widely used in daily chemical products, such as shampoo, shower gel, soap, toothpaste, etc. Fruit fragrance is indispensable in the formula. It can increase the freshness of the top fragrance of the fragrance, make the whole fragrance more fresh and natural, lively and lively, and bring a watery feeling to the whole fragrance, making the whole fragrance come alive, playing a finishing touch in the fragrance. The apple fragrance is widely used by perfumers in various fragrances and has become an important part of daily chemical fragrances.

Apple Fragrance

LDZ-PL60014

Product Feature:

Apple is the fruit of the genus *Malus* in the Rosaceae family. There are about 25 species in this genus. Apple trees are the most widely cultivated fruit trees. There are thousands of apple varieties. The genus *Malus* is native to the temperate zones of both hemispheres. The United States, China, France, Italy and Turkey are the largest producers, and France, Italy, Hungary, Argentina, Chile, South Africa and the United States are the largest exporters. Apples are rich in carbohydrates and vitamins A and C, and contain a lot of fiber, which is also necessary for the body. Because people like the smell of apples very much, apple flavors have been used in beverages, ice cream, cakes, candies, jellies, chewing gum and other foods for a certain period of time. Apple flavors have also been widely used in the field of daily chemicals. Whether it is shampoo, shower gel, soap or cream, toothpaste, etc. Apple, as a kind of fragrance, is applied by perfumers to various types of fragrances and has become an important part of daily chemical fragrances. Because apple fragrance is widely used in modern perfumery, perfumers use apple fragrance in various fragrances almost every day. To create a good apple aroma, a group of spice ingredients (usually dozens of raw materials) must be used. Considering the convenience of flavor blending and practical application, perfumers will blend a base that can be used in many flavors and types of flavors according to actual applications.

Technical Parameters:

Among the many apple fragrances that have been used, we will introduce the preparation of one of them. We call it: Apple 3#. According to the aroma characteristics of apples and the fragrance medium to be used, after repeated experiments, this Apple 3# that can be used in a variety of daily chemical fragrances is prepared. Whether it is used in shampoo, shower gel, soap, or even cream or perfume, it can well reflect the ideal effect.

Apple 3# Formula	
Ingredients	Percentage(%)

Allyl heptylate	4.0
Nectaryl	4.0
Fructose	6.0
Undecalactone gamma	8.0
Dihydromyrcenol	12.0
Dimethyl benzyl carbonylbutyrate	16.0
Agrumex HC	26.0
Exaltolide total	2.0
Globalide	10.0

Application of Apple:

(in Daily Chemical Perfume)

Apple is widely used in daily chemical perfume, especially in perfume, cream, shampoo, shower gel, soap, washing powder and some industrial products, becoming an important part of the fragrance of daily chemical essence. There used to be many shampoos, soaps and other products on the market that directly used apple essence. Among the daily chemical products currently popular on the market, apple fruit fragrance is almost indispensable in the essence used in most products. Among the popular shampoos, shower gels and other products on the market today, the fragrance is mainly fruity and floral. Fruity fragrance is of course popular with apples, melons, red berries, mangoes, passion fruits and bananas.

In short, apples are a fruit that people love very much, and their fragrance and aroma have been familiar to people and remembered by people. Apple flavored products can be seen everywhere in people's lives. With the continuous development of new raw materials for apple flavors, perfumers have a deeper understanding of apple aroma, and the blending of apple aromas will become more and more perfect. Whether in food or in daily chemical products, as well as in other fields, the value of apple aroma will be increasingly reflected.
