Product Description

Eco Friendly Sweet Orange Fragrance For Laundry Products LDZ-PL60015

Product Descriptions:

Sweet orange flavor, as a unique aroma component, is not only widely used in daily life, but also plays an important role in the food and cosmetics industry. This flavor derived from natural sweet orange fruit not only exudes a pleasant and fresh aroma, but also carries rich nutritional value and health benefits.

Sweet orange flavor is mainly derived from the fruit of the sweet orange tree. The sweet orange tree, also known as the orange tree, yellow fruit tree, golden ring tree, and citrus tree, is an evergreen tree of the genus *Citrus* in the Rutaceae family, native to southern China and tropical Asia. Its fruit is round or oblong, with a smooth skin and orange-yellow color. The flesh is sweet and sour and rich in vitamin C and various minerals. The fruit of the sweet orange tree is picked, cleaned, crushed, pressed, and other processes to extract the sweet orange essential oil, and then through a fine distillation and purification process, the pure sweet orange flavor is finally obtained.

Product Feature:

The production process of sweet orange flavor is very particular, mainly including the steps of picking, crushing, squeezing, distillation, purification, etc. First, select the sweet orange fruits with high maturity and good quality for picking, and then wash and crush them. Then, put the crushed pulp into the squeezer for squeezing to obtain sweet orange juice. The juice contains rich sweet orange essential oil and other aroma components. Then, the essential oil and other aroma components in the juice are separated by distillation technology. Finally, after multiple purification processes, impurities and undesirable components are removed to obtain pure sweet orange flavor.

Light yellow transparent water-soluble and oil-soluble liquid with sweet orange aroma. It is applicable to industrial-grade daily chemicals. Sweet orange flavor is a light yellow transparent water-soluble and oil-soluble liquid with sweet orange aroma. It is applicable to industrial-grade daily chemicals, or food-grade baking, candy, ice cream, beverages, chewing gum, etc. The recommended dosage is 0.1%~0.5%.

Sweet Orange Fragrance

Technical Parameters:

The blended sweet orange essence is made from cold-pressed sweet orange oil or orange juice essential oil as the main raw material, and is made by low-concentration ethanol extraction and terpene removal technology. The aroma of melon is composed of green, sweet and fruity notes. Fruity notes are usually composed of ethyl formate, ethyl acetate, butyl acetate, ethyl butyrate, amyl butyrate, ethyl valerate, amyl valerate, benzaldehyde, hexadecene, lemon oil, etc.; sweet notes are usually composed of vanillin, maltol, methyl cinnamate, benzyl cinnamate, ionone, clove oil, etc.; and light notes are usually composed of methyl heptanecarboxylate, methyl octynecarboxylate, benzyl acetate, benzyl formate, phenylacetaldehyde, etc.

Sweet Orange Flavor Formula (Special for Toothpaste)--- Core ingredients and proportions (amount added per ton of toothpaste)		
Ingredients	Additive Dosage (kg)	Funtion
Orange Oil (Cold Pressed)	0.05-0.1	Natural fruity base, containing more than 90% limonene
d-Limonene	0.03-0.05	Enhance the citrus freshness, desensitization treatment is required ($\leq 0.1\%$)
Decanal	0.001-0.003	Provides astringent feeling from orange peel, too much can be bitter
Neryl Acetate	0.005-0.01	Increase the level of floral fragrance and reduce the thin feeling
Menthone Glycerin Acetal	0.01-0.02	Gentle cooling sensation without covering up the fruity aroma
β -Caryophyllene	0.001-0.002	Woody base, prolongs the fragrance
Butylated Hydroxytoluene	0.001	Prevent limonene from oxidizing and changing its taste

Applications :

Sweet orange flavor has been widely used in many fields due to its unique aroma and nutritional value. In the food industry, sweet orange flavor is often used in the production of desserts such as juice, candy, ice cream, etc., adding a fresh aroma and taste to the products. In the cosmetics industry, sweet orange flavor is often used in the formulation of perfumes, shower gels, shampoos and other products, bringing a pleasant aroma experience to the products. In addition, sweet orange flavor also has certain antibacterial, anti-inflammatory and antioxidant effects, so it also has certain application prospects in the fields of medicine and health care products.

The reason why sweet orange flavor is widely loved and sought after is not only because of its unique aroma and wide range of applications, but also because of its many unique charms. First of all, sweet orange flavor has a fresh and pleasant aroma, which can bring people a pleasant mood and a relaxing atmosphere. Secondly, sweet orange flavor is rich in various nutrients, such as vitamin C and various minerals, and has certain health care effects. In addition, sweet orange flavor also has a variety of biological activities such as antioxidant, antibacterial and anti-inflammatory, which helps to protect skin health and prevent diseases. Finally, the production process of sweet orange flavor is unique. After multiple fine purification processes, its purity and quality are guaranteed, making it more competitive in the market.

Support and Services:

Tailor your own fragrance for a tranquil and rejuvenating ambiance.

Design personalized aromatherapy blends to promote relaxation and upliftment.

Customize your fragrance with a unique scent tailored to your preferences.

For perfume fragrance oils, we offer OEM support for creating your own signature scent or replicating popular perfumes, ensuring your chosen fragrance stays with you wherever you go.

Our technical support team is available to assist with any questions or concerns you may have regarding the use or performance of the product.

Additionally, we offer a range of services to ensure you get the most out of your Toothpaste Perfume, including:

- [Product usage tips and recommendations](#)
- [Information on proper storage and handling](#)
- [Assistance with product troubleshooting and issue resolution](#)
- [Product warranty and repair services](#)
- [Regular product maintenance and cleaning](#)

Our goal is to provide you with the highest level of customer satisfaction possible, and we are committed to ensuring that your experience with our Toothpaste Perfume product is a positive one.
