Product Description

Natural Plant Extract Colgate Herbal Fragrance For Toothpaste

LDZ-PL90025

Product Descriptions:

Natural flavors are essential oils extracted from natural plants. Natural flavors have a natural aroma, making herbal toothpaste more delicious. Adding natural flavors to herbal toothpaste not only improves breath, but also eliminates bad breath. The use of natural flavors is specifically to enhance the taste and aroma of herbal toothpaste. It also has a bactericidal function and forms a protective barrier in the mouth.

Product Feature:

Natural Chinese herbal medicine is the quintessence of China, and natural plant extracts are the essence of herbs. Many extracts have the effects of clearing away heat and relieving fire, anti-inflammatory and swelling, and detoxification, and are very suitable for use in gum care products.

Toothpaste flavors are composed of a mint base and a prominent aroma that gives the product its flavor characteristics. Depending on the product concept, the proportion of the mint base and the prominent aroma is different, roughly: children's toothpaste flavors have more prominent aromas and less mint bases; household and adult toothpaste flavors have more mint bases and less prominent aromas. Common types of toothpaste flavors include mint flavor, spearmint flavor, wintergreen flavor, fruit flavor, tea flavor, medicinal flavor, etc.

Technical Parameters:

Plant Extracts In Common Herbal Toothpastes and Effects	
Attribute Name	Attribute Funtion
Mint	Mint, also known as honey mint, is a perennial herb of the genus <i>Menthus</i> in the family <i>Rosmarinaceae</i> . The main component of mint is menthol, which has a cooling effect. The combination of mint and herbal toothpaste can play a good role in oral cleaning and anti-inflammatory. In addition, mint can also relieve oral pain, such as oral ulcers and gingivitis.
Licorice	Licorice, also known as licorice root, is a plant of the genus <i>Rutaceae</i> in the <i>Fabaceae</i> family. Licorice contains ingredients such as glycyrrhizic acid and betaine, which have multiple effects such as anti-inflammatory, antioxidant and moisturizing, and are suitable for the care of various skin problems. In herbal toothpaste, licorice can relieve oral pain and anti-inflammatory effects. Using herbal toothpaste containing licorice root extract can relieve the discomfort caused by oral inflammation such as oral ulcers and periodontitis.
Melia azedarach	Melia azedarach, also known as Kudingcha, is a large evergreen shrub of the genus <i>Melia</i> in the <i>Lythraceae</i> family. The main component of Melia azedarach is azadirachtin, which contains a large number of active ingredients and has anti-inflammatory, anti-inflammatory, antibacterial, and anti-allergic effects. Therefore, Melia azedarach extracts are also widely used in herbal toothpaste. When used with herbal toothpaste, Melia azedarach can relieve oral pain and inflammation, eliminate oral odor, and also relieve bad breath.
Natural flavors	Natural flavors are essential oils extracted from natural plants. Natural flavors have a natural aroma, making herbal toothpaste more delicious. Adding natural flavors to herbal toothpaste not only improves breath, but also eliminates bad breath. The use of natural flavors is specifically to enhance the taste and aroma of herbal toothpaste, and also has a bactericidal function, forming a protective barrier in the mouth.

Applications:

LDZ-PL90025 Herbal Fragrance Oil is a multi-purpose product that can be used in a variety of occasions and scenarios. Its refreshing mint flavor is perfect for adding a pleasant scent to your toothpaste, making your daily oral care routine more enjoyable. **Here are some of the product application occasions and scenarios:**

Toothpaste Aroma: Add a drop or two of the LDZ-PL90025 Herbal Fragrance Oil to your toothpaste to give it a refreshing mint aroma. This will make brushing your teeth a more enjoyable experience and leave your mouth feeling fresh and clean.

Toothpaste Fragrance: LDZ-PL90025 Herbal Fragrance Oil can also be used as a fragrance for your toothpaste. Its high purity and lasting fragrance make it ideal for adding a pleasant scent to your oral care routine.
