Product Description

Floral Lux Fragrance Oils For Shampoo / Shower gel /Laundy Detergent LDZ-PL60013

Product Description:

The scent of Lux shower gel can be roughly divided into four categories: floral, fruity, fresh and aromatic. Among them, floral scents are mainly elegant and sweet, such as Lux's classic "Morning Flower Fragrance" and "Flower Fragrance" series. The former is mainly fresh floral scent, while the latter incorporates rose, jasmine and other floral scents, making it more intense.

Lux Botanical Body Wash is formulated with carefully selected botanical ingredients and essential oils to provide deep cleansing and nourishment. Both the Freesia and Sakura versions contain rich floral essential oils to not only cleanse the skin but also leave a delicate floral scent.

Floral Lux Fragrance

LDZ-PL60013

Product Feature:

Lux's floral fragrances are usually "rich floral notes". The floral fragrances in shower gels, soaps and shampoos are known for their elegance, durability and rich layers. They are particularly good at compounding classic floral notes with modern cosmetic fragrances.

Aroma style	
Attribute Name	Attribute Benefit
Main notes:	Rose, jasmine, lily and other classic white flowers, highlighting the feminine and soft temperament.
Secondary notes:	Fruity notes: (such as lychee and pear) enhance the freshness.
	Woody notes: (such as white musk and cedar) provide a warm aftertaste.
	Soapy aldehydes :(C11 aldehyde, C12 aldehyde) enhance the clean association.

**Technical Parameters:**

Core Ingredients		
Ingredient Type	Representative raw materials	Function
Natural flower essential oils:	Rose absolute, Jasmine absolute	Provide real petal aroma
Synthetic floral fragrance agents:	Phenylethanol (rose), Indole (jasmine)	Enhance the fragrance and have good stability
Fixative agents :	White musk (Galaxolide), coumarin	Extend the fragrance retention time (8-12 hours)
Fresh modifiers :	Limonene, Linalool	Avoid the flower fragrance being too dull
Soapy aldehydes	Lauric aldehyde (C12), Undecanal (C11)	Strengthen the psychological suggestion of "clean after washing"

Applications:

Attribute Name	Attribute Benefit
Shower gel& Soap :	Highly volatile top notes: citrus (citral) + green leaves (hexenal) create a "fresh feeling after opening the bottle".
	Foam stability: The fragrance must be resistant to pH 9-10 (soap-based system) and not react with surfactants (such as SLES).
	Skin residual fragrance: Prolong the fragrance through microencapsulation technology (such as polyacrylate encapsulation).
Shampoo:	Low irritation: Reduce the content of phenols (such as eugenol) to avoid scalp sensitivity.
	Silicone oil compatibility: The fragrance does not stratify with dimethicone.
Body lotion :	Low temperature stability: No crystallization at -5°C (jasmine absolute needs to be dewaxed).
	Oil fusion: No conflict with natural oils such as shea butter and jojoba oil.

Customization & Supports:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients.
