- Ingredients: Natural And Synthetic Fragrance Oils
- Sample: Freely Provided
- Volume: 25kgs
- Packaging Type: Plastic Or Iron Barrel

Product Description

100% Pure Sauvage (Di or Fragrance)Essence For Perfume Making With Hight Quality

LDZ-PL10083

Product Description:

Overall, this fragrance is characterized by fresh and spicy top notes, masculine woody aromas, and a unique, long-lasting marine woody aroma brought by ambroxan. It is often considered a versatile fragrance. It is a fragrance designed to imitate the smell of wilderness perfumes.

Conceived as an ode to nature, Sauvage is an act of creation inspired by wide-open spaces. Its compositions are defined by raw freshness that are both powerful and noble. Raw and lively, sensual and mysterious, refined and intoxicating

Fragrance Essence

LDZ-PL10083

Product Feature:

This fragrance opens with a bit of spicy lemon, but the fresh and refreshing feeling is still the main theme, and the spiciness has a bit of impact. The middle note is mainly woody, using many kinds of spices. The first feeling is the numb lavender and vetiver, patchouli mixed with the scent of flowers.

The base note has completely changed its style, with a slightly obvious soapy feeling, some leather, a little sweet, the coolness of cedar, the patchouli in the middle note, and the smell of ambroxan and labdanum, which has mixed reviews.

Persistence: It has a good fragrance retention time and can continue to emit fragrance after use.

Diffusion: With good diffusion, the fragrance can be effectively spread and enhance the presence of the fragrance.

Technical Parameter:

The Mainly Components Of Sauvage Fragrance (For Reference Only)		
Core Ingredient	Percentage(%)	Technology Details
Supercritical CO ₂ extraction of bergamot oil	18	Double fragrance technology: Ambroxan + Musk Ketone
